ASEAN Power Distribution Box Brand Manufacturer

Overview

Our Caretron+ and Optipro Distribution Boards are designed to meet the needs of both aesthetics and utility.

Key Takeaways

Key manufacturers and suppliers of power distribution boxes in the ASEAN region include ASEAN Electric Group, DOHO Electric, IndoAsian, and Rittal's authorized channel partners. Major Manufacturers and Suppliers1.

ASEAN Electric Group ASEA

N Electric Group specializes in manufacturing and supplying power transmission, photovoltaic box substations, and distribution products. Their offerings include prefabricated electrical substations and medium-voltage power distribution units, suitable for industrial and renewable energy applications. The company is headquartered in Nanjing, Jiangsu, China, and serves ASEAN markets through regional distribution and partnerships.

2.

DOHO Electric DOH

O is a leading Chinese manufacturer of distribution boxes with extensive OEM/ODM capabilities. Their products are widely used in solar energy, wind energy, data centers, communications, and new energy vehicles.

DOH

O emphasizes high-quality materials, ISO-certified quality management systems, and customizable solutions to meet specific client requirements. They offer both standard and bespoke power distribution boxes, making them a versatile supplier for ASEAN companies. 3.

Indo

Asian Indo

Asian provides Caretron+ and Optipro distribution boards, designed for both aesthetic appeal and practical performance. Their products feature isolated neutral bars, cement-spill protectors, and IP-rated enclosures, ensuring safety and durability.

Indo

Asian serves regional markets with a focus on modern installations and industrial applications. 4.

Rittal Channel Partners in ASEA

N Rittal operates through authorized channel partners, distributors, and system integrators across ASEAN countries including Singapore, Philippines, Malaysia, Thailand, Indonesia, and Vietnam. They offer industrial enclosures, busbar systems, and power distribution solutions suitable for commercial and industrial applications. Regional Standards and ConsiderationsASEAN nations are increasingly adopting common standards for distribution boxes, particularly to support renewable energy integration and smart grid initiatives.

Standardized designs improve reliability, disaster recovery, and interoperability across countries, ensuring consistent performance for residential, commercial, and industrial users.

Summary

For companies seeking power distribution boxes in ASEAN, options include: ASEAN Electric Group for prefabricated substations and medium-voltage solutions.

DOH

O Electric for customizable, high-quality distribution boxes across multiple industries.

Indo

Asian for aesthetically designed and practical distribution boards. Rittal's authorized partners for industrial enclosures and busbar systems. These manufacturers and suppliers provide a range of solutions from standard to bespoke, supporting both traditional and renewable energy applications in the ASEAN region.
