Where are the Ethiopian mesh cable tray manufacturers

Overview

Galvanised Cable Tray In Ethiopia, Galvanised Cable Tray Thanks to innovation and improved technology, we have evolved into a one-stop shop for Galvanised.

Key Takeaways

Top mesh cable tray suppliers in Ethiopia include Jeetmull Jaichandlall, NAHMA Precision Metal Products, and Brilltech Engineers, offering high-quality wire mesh and perforated cable trays for industrial and commercial applications. Leading Suppliers1. Jeetmull Jaichandlall (P) Ltd.

This company is recognized as one of the top wire mesh cable tray manufacturers in Ethiopia. They provide a wide range of mesh cable trays in various sizes, shapes, and colors, tailored to industrial, construction, and commercial needs. Their products are durable, impact-resistant, and allow excellent ventilation, making them suitable for electrical installations, filtration, and separation applications.

The company emphasizes quality control and adherence to industry standards, with modern manufacturing facilities and advanced technology on-site. 2.

NAHM

A Precision Metal Products Based in Addis Ababa, NAHMA supplies high-quality ladder-type, perforated, and custom cable trays. They focus on professional manufacturing for electrical and industrial applications, offering solutions that meet local compliance and structural requirements. Their products are suitable for both standard and specialized installations.

3. Brilltech Engineers Pvt. Ltd.

Brilltech Engineers provides a comprehensive range of cable trays, including wire mesh, ladder, PVC, mild steel, perforated, and stainless steel options. They offer customized solutions for residential, commercial, and industrial sectors, ensuring quality through in-house manufacturing and expert oversight. They also provide timely delivery and after-sale support, making them a reliable choice for Ethiopian projects.

Considerations for Ethiopian Installations

Material and Corrosion Protection: Hot-dip galvanized steel is ideal for most regions, while 316L stainless steel or powder-coated aluminum is recommended for high-humidity or coastal areas. Compliance: Ensure suppliers provide products compliant with ESA SES 501: 2015 (structural safety) and ET-NFC 2015 (fire codes), with grounding continuity testing per IEC 61537. Customization: Many suppliers offer modular designs and custom sizes to integrate with existing conduit systems and cable management accessories.

These suppliers collectively cover a wide range of mesh cable tray needs in Ethiopia, from standard industrial applications to specialized, corrosion-resistant, and fire-safe installations.
