Belgian Low-Voltage Complete Equipment Supplier

Overview

The company relies on specialists across its three Belgian sites for its low voltage and lighting solutions. This results in direct communication channels, efficient custom work, and local employment.

Key Takeaways

Automation and Electramo are leading Belgian manufacturers providing comprehensive low-voltage electrical solutions, with Automation also offering modular datacenter facilities.

Automation

Automation is a Belgian engineering company active since 1961, specializing in low-voltage electrical power solutions and datacenter facilities. The company delivers turnkey solutions, including All-in-One Prefabricated Datacenters and Modular Utility Platforms composed of IT and Facilities Modules. Automation has extensive experience in telecom infrastructure, with over 600 installed units such as Cable Landing Stations, Repeater Stations, and Disaster Recovery Sites.

Their solutions are tailor-made or co-developed to meet specific customer requirements, emphasizing high quality, innovation, and advanced engineering.

Electramo

Founded in 1974, Electramo specializes in low-voltage electric motors and related industrial electrical equipment. The company provides customized solutions, fast delivery, and flexible modification options for industrial clients across Europe. Electramo operates from Belgium with a strong logistics network and international presence, including subsidiaries in the Netherlands, France, and a production facility in China.

Their focus is on reliable service, long-term partnerships, and maintaining operational continuity for industrial clients.

ABC CONTRACTINGABC CONTRACTIN

G, established in 1926, offers turnkey EPC services for energy projects, including low-voltage and medium-voltage distribution systems and transformer stations. While their primary focus is on large-scale energy projects in Africa, they provide complete low-voltage solutions integrated with renewable energy components and hybrid power plants. Their expertise includes design, project management, and containerized solutions for industrial and energy applications.

Summary

For Belgian low-voltage complete equipment solutions, Automation is ideal for modular datacenter and telecom applications, Electramo excels in industrial low-voltage motors and tailored electrical systems, and ABC CONTRACTING provides turnkey low-voltage and medium-voltage solutions for large-scale energy projects. These companies collectively cover a wide range of low-voltage applications, from industrial motors to prefabricated datacenter facilities and energy distribution systems.
