Companies using network cabinets in Indonesia

Overview

Most of the industry standard racking and enclosure storage products are covered by our existing product range.

Key Takeaways

Several Indonesian companies specialize in network cabinets, including PT. Uni Network Communications, Norden Indonesia, and PT. Media Partner Indonesia, serving data centers, enterprises, and telecommunication networks.

Key Companies and OfferingsPT. Uni Network Communications (UNC) is a leading provider of data center and network infrastructure solutions in Indonesia. They supply a wide range of cabinets, including closed racks, wall-mounted racks, open racks, colocation racks, air-conditioned server racks, and smart cabinets.

UN

C also offers accessories like rack PDUs, KVM switches, environmental monitoring systems, and network cabling solutions for both copper and fiber optic networks, supporting enterprise and data center deployments across Indonesia. Norden Indonesia specializes in wall-mount cabinets for indoor and outdoor applications, including residential, office, and telecommunication environments. Their products comply with international standards such as ANSI/EIA, IEC, and ETSI, and include IP55, IP65, and IP66-rated cabinets for secure and weather-resistant installations.

Norden cabinets are designed for easy installation, maintenance, and efficient cable management. PT. Media Partner Indonesia provides standard network cabinets with advanced surface treatments for durability, including anti-rust phosphating and electrostatic spraying.

These cabinets are suitable for enterprise networking and server room applications.

Industry Context

In Indonesia, 19-inch rack cabinets are widely used in data centers and enterprise networks. They provide vertical space optimization, improved airflow, and organized cable management, which is essential in urban environments with limited space. Properly designed cabinets also protect equipment from dust, moisture, and unauthorized access, while supporting scalable IT infrastructure for growing digital demands.

Market Overview

The Indonesia Enterprise Network Infrastructure market includes multiple companies that implement network cabinets as part of their IT and networking solutions. These companies cater to sectors such as telecommunications, finance, government, and large enterprises, ensuring reliable deployment of servers, switches, and other critical network equipment.

Summary

For businesses or organizations in Indonesia looking for network cabinets, PT. Uni Network Communications, Norden Indonesia, and PT. Media Partner Indonesia are key suppliers offering a variety of racks and enclosures suitable for data centers, enterprise networks, and telecommunication infrastructure.

Their products are designed to handle Indonesia's environmental conditions while providing secure, organized, and scalable IT infrastructure solutions.
