Dominion Wire & Cables Limited is Fiji's only local manufacturer and distributor of cable solutions for energy, communication, data, and industrial sectors. They produce cables to international standards (AS/NZS and BS specifications) and export across the Pacific, including Australia and New Zealand. Their capabilities include designing, manufacturing, and supplying fiber optic and communication cables, along with a complete package of accessories for instrumentation, data, and energy systems . Datec Fiji specializes in fiber optic services, including design, cable installation, fusion and mechanical splicing, testing, and maintenance. They provide end-to-end solutions for businesses, government, healthcare, and industrial sites, ensuring minimal downtime and high-quality network performance . VT Solutions Ltd offers comprehensive cabling solutions, including fiber optic, Cat 6/6A, coaxial, and data cables. They also provide wireless network coverage, secure Wi-Fi networks, and installation of communication equipment such as video conferencing systems, PA systems, and digital signage . General Data Cabling (GDC/iMatai) is a Fiji-owned company providing data and communication network solutions across the Pacific. They focus on technically complete deployments, staff training to international standards, and project management for complex network installations . FNE Communications provides telecommunications construction services in Fiji, emphasizing safety, ethical practices, and continuous skill development for their staff .

Summary

For organizations seeking fiber optic communication equipment and services in Fiji:

• Manufacturing: Dominion Wire & Cables Limited is the primary local manufacturer of fiber optic and communication cables.

• Installation & Maintenance: Datec Fiji and VT Solutions provide professional installation, splicing, testing, and network maintenance.

• Project Management & Network Solutions: GDC/iMatai and FNE Communications offer end-to-end network deployment and technical expertise. These companies collectively cover the full spectrum of fiber optic communication needs, from manufacturing and supply to installation, maintenance, and network optimization.
