

ASEAN Ring Network Industrial Switches

Overview

Our range includes unmanaged, PoE, Lite-Managed, and Layer 2/3 managed switches that help support secure communication, better network control, and resilient infrastructure across industrial environments. Our switches can address connectivity needs in a variety of vertical markets. ORing's industrial Ethernet. Segments - by Type (Managed, Unmanaged), Application (Factory Automation, Transportation, Oil and Gas, Mining, and Others), End-User (Manufacturing, Energy and Utilities, Transportation, and Others), and Region (Asia Pacific, North America, Latin America, Europe, and Middle East & Africa) - Global. Current market valuation estimates place the regional revenue in the multi-billion-dollar range, reflecting compounded annual growth rates (CAGR) that have consistently outpaced global averages. This growth trajectory is underpinned by expanding industrial automation initiatives and the integration. IES-3080 is a managed redundant ring Ethernet switches with 8x10/100Base-T (X) ports. With completely support of Ethernet redundancy protocol, O-Ring (recovery time < 30ms over 250 units of connection), O-Chain, MRP and MSTP/RSTP/STP (IEEE 802. 1s/w/D) can protect your mission-critical applications. PLANET Industrial Ethernet equipment is compliant with various industrial protocols and ITS certifications such as MQTT, Modbus, SCADA, EtherCAT EN50155 and E-Mark to meet all the transmission needs, be it Information, Control or Device. PLANET features ERPS Ring, IEEE 1588 PTP, Layer 3 routing. The global Industrial Ring Switch market was valued at US\$ million in 2023 and is anticipated to reach US\$ million by 2030, witnessing a CAGR of % during the forecast period 2024-2030.

Article Content

Industrial Ethernet Switch

ORing offers a comprehensive portfolio of rugged industrial Ethernet switches, from cost-effective unmanaged and PoE models to advanced Layer 2/3 managed switches enabling precise control. Our

Asia Pacific Industrial Ring Switch Market Size, Digital Trends ...

Segment-wise analysis shows that high-voltage and medium-voltage ring switches constitute the largest revenue share, owing to their critical role in power distribution networks.

Asia Pacific Network Switch for Industrial Market Outlook ...

The Asia Pacific network switch market for industrial applications is experiencing robust growth driven by increasing automation and the rising adoption of Industry 4.0 technologies.

Asia Pacific Ring Main Unit Market Size, Share & Trends, 2033

This research report on the Asia Pacific ring main unit market has been segmented and sub-segmented based on insulation type, voltage rating, installation type, and region.

Industrial Ethernet

PLANET features ERPS Ring, IEEE 1588 PTP, Layer 3 routing, 10G transmissions, cybersecurity and more to ensure high performance and security of our comprehensive Industrial Ethernet collection.

Global Industrial Ring Switch Market Research Report 2024

The industrial ring network switch is a switch that forms a ring network. It can form a ring network. Each switch has two ports for ring formation. The switches form a ring network topology by hand in hand.

Asia Pacific Network Switches Market Analysis 2026

We design and execute custom surveys targeting manufacturers, distributors, procurement heads, and end-consumers in the asia pacific network switches market analysis ecosystem — validated by our

ASEAN Switchgear Market Size, Share, and Industry Trends Forecast

The ASEAN Switchgear Market valued at \$4.8 Billion in 2026 is projected to expand to \$10.09 Billion by 2035, advancing at a 8.60% CAGR over the analysis window. Grid modernization across Indonesia,

Industrial Ring Networks | ERPS | Antaira Technologies

Industrial Ethernet switches are critical components in network infrastructures, often used in harsh environments and mission-critical applications. The Ethernet Ring Protection Switching (ERPS)

Proprietary Ring Topologies in Automation Networks | DigiKey

In fact, select manufacturers claim much better recovery times for their proprietary ring networks sometimes to within 10 msec. Conclusion on ring topologies in industrial automation

Real-time Redundant Ring Switch Industrial Ethernet Switch

Introduction The Real-time Redundant Ring Switch offers fault-tolerant industrial Ethernet with ring network topology. The built-in ICP DAS proprietary Cyber-Ring technology detects and recovers from

Perle P-Ring Protocol | Industrial Managed Switches

For these reasons, ring topology networks are popular within industrial infrastructures (Fig 1). Caution! Storm Warning: However, when using switches to set up a ring topology network, the administrator

Industrial Switches (ISW) | Extreme Networks

Extreme Industrial Switches are an excellent choice for industrial environments, including intelligent transportation systems, utilities, and smart cities. Full redundant ring technology creates fault-

Redundant Ring Technology for Industrial Ethernet Applications

Next, we introduce “redundant ring” technology, and point out the advantages that redundant rings have over traditional systems. In closing, we highlight the key features of industrial Ethernet switches, and

X-Ring Ethernet Industrial Ring Technology

Case Communications X-Ring provides an Ethernet Ring between Industrial Ethernet switches, running at 10 Mbps, 100 Mbps or 1 Gbps. X-Ring can support

ASEAN's Strategic Leap: Building Resilience in the Semiconductor

ASEAN can no longer afford to be reactive or fragmented. By embracing a future-oriented vision and capitalising on its comparative advantages – from skilled talent and trade networks to

How Industrial Switches Build Industrial Ring Networks

The key features of industrial switches that contribute to the effectiveness of ring networks include their high availability, reliability, and scalability. Industrial switches are designed to operate in harsh

10-Port Industrial PoE+ Gigabit Managed Switches

All Antaira managed switches provide the ring network redundancy function with STP/RSTP/MSTP and the ITU-T G.8032 (ERPS – Ethernet Ring Protection Switch) protocol which
