# Huijue Fiber Optic Router

## Overview

As a leading Fiber Optical Components manufacturer and supplier, Huijue has been providing customers with the best and most suitable products and solutions.

## Key Takeaways

There is no clear evidence that Huijue Fiber Optic manufactures or sells routers. Shanghai Huijue Network Communication Equipment Co., Ltd (Huijue Fiber Optic) is primarily a manufacturer and solution provider for telecom and communication products, focusing on fiber-optic equipment, telecom cabinets, and related network components. Their facilities include R&D, technical centers, and mass production factories for metal precision production and optical fiber products, but the available information does not list routers as part of their product lineup.

### Alternative Options for Fiber-

### Optic Routers

If you are looking for routers compatible with fiber-optic internet, there are many options from other manufacturers. Popular choices include NETGEAR, ASUS, TP-Link, and HUAWEI, which offer routers capable of handling high-speed fiber connections, supporting Wi-Fi 6 or Wi-Fi 7, and providing features like multi-gigabit LAN ports, mesh networking, and advanced security.

### HUAWE

I, for example, has a range of routers including WiFi Mesh Series, WiFi BE/AX Series, and CPE Series, which are designed for fiber-optic networks.

### Recommendation

If your goal is to set up a fiber-optic network, you may need to purchase a compatible router from a dedicated networking brand rather than relying on Huijue Fiber Optic, which specializes in infrastructure components rather than end-user routers. For business or home use, consider routers that explicitly support fiber-optic speeds and standards to ensure optimal performance.
