Nepal Optical Cable Manufacturing Plant

Overview

Home | Litmus Industries Ltd.From powering Nepal's major transmission and distribution projects to serving international markets, Litmus delivers a diverse.

Key Takeaways

Nepal hosts several key optical cable manufacturers, including Technovate International, Litmus Industries, and Janaki Cable Industry, serving the country's growing telecommunications and electrical infrastructure needs.

Key Manufacturers

Technovate International Pvt. Ltd is a prominent player in Nepal's fiber optic sector, established in 2017. The company provides end-to-end fiber optic products and solutions for Internet Service Providers (ISPs) and Cable TV operators, along with telecommunication equipment.

Technovate primarily imports goods from international partners but focuses on delivering quality products and consistent after-sales support to the Nepalese market. Litmus Industries Limited, originally Lumbini Vidyut Udyog, has been operating since 1977 and is Nepal's largest manufacturer of wires, cables, and conductors. Under Ramesh Corp since 2014, Litmus produces high-purity aluminum conductors, medium and low voltage cables, and specialized products like Aluminum Conductor Steel Reinforced (ACSR) and Medium Voltage Covered Conductor (MVCC).

The company employs advanced German technology for precision manufacturing and adheres to ISO 9001: 2015 standards, ensuring high-quality and reliable output. Janaki Cable Industry Ltd, located in Dhanusha, is another major manufacturer providing a wide range of electrical and optical cables. Their product portfolio includes ACSR conductors, house wires, ABC cables, flexible wires, and power and electronic cables.

Janaki Cable emphasizes technological excellence, customer-centric solutions, and adherence to quality standards, positioning itself as a key contributor to Nepal's electrical and telecommunications infrastructure. Industry OverviewNepal's optical cable manufacturing sector is supported by both domestic production and imports. While companies like Technovate focus on fiber optic solutions, traditional cable manufacturers such as Litmus and Janaki Cable produce a mix of electrical and optical cables.

The industry leverages modern manufacturing technologies, quality management systems, and international standards to meet the growing demand for high-speed internet, telecommunication networks, and reliable electrical distribution.

Trade and Supplier Networks

For businesses seeking suppliers, platforms like Trademo provide listings of optical cable manufacturers and suppliers in Nepal, including shipment details, trade volumes, and global trading partners. This facilitates market intelligence and helps identify potential business opportunities in the optical cable sector. In summary, Nepal's optical cable manufacturing landscape is anchored by a combination of specialized fiber optic providers and established cable manufacturers, offering a range of products to support the country's expanding telecommunications and electrical infrastructure.
