Oman Photovoltaic Combiner Box Manufacturer

Overview

String combiner box for photovoltaic systems up to 1,000 V DC for the connection of up to 16 strings.

Key Takeaways

Oman Solar Systems Co. LLC is a leading local provider of photovoltaic combiner boxes and solar energy solutions in Oman.Key Manufacturers and Suppliers

Oman Solar Systems Co. LLC (OSS), based in Muscat, is a certified Omani company specializing in renewable energy solutions, including stand-by power systems and photovoltaic combiner boxes. OSS has over 30 years of experience in technology installations and engineering, serving sectors such as telecom, oil & gas, government, and defense . Their combiner boxes are designed to withstand Oman's harsh desert climate, with IP65 ratings, anti-UV housing, and stainless steel components for coastal projects . Sheida Solar, located in Sohar, North Al Batinah, manufactures solar PV panels and related components entirely within Oman. While primarily focused on PV panels, they are part of the local ecosystem that supports combiner box integration for Omani solar projects .

Features and Considerations for Omani Projects
• Climate Adaptation: Combiner boxes must handle high solar radiation, sandstorms, and coastal humidity. IP65-rated enclosures and anti-UV materials are recommended .

• Capacity: Typical combiner boxes in Oman can manage multiple strings, often up to 16, with fuse protection, DC isolators, and surge protection .

© 2026 ALFA PRO COMMUNICATION SYSTEMS (Pty) Ltd - All rights reserved

• Monitoring and Maintenance: Modern combiner boxes may include sensor modules for remote monitoring. Quarterly visual inspections and full electrical testing every 2 years are advised, especially after sandstorms .

• Certification: Look for IEC 62989 compliance to ensure reliability and safety in utility-scale and commercial solar installations .
Market Context

Oman aims to generate 30% of its electricity from renewable sources by 2030, driving demand for reliable combiner boxes in regions like Al Sharqiyah Sands and Dhofar . Selecting a local manufacturer ensures faster delivery, climate-optimized designs, and easier maintenance support. For inquiries, OSS can be contacted through their website omansolar.com for customized combiner box solutions, while Sheida Solar provides complementary PV components for integrated solar systems .
