Price list from Turkmenistan cable tray suppliers

Overview

turkmenistan-steel-cable-tray-price-list | B2B companies and suppliers. 28 Companies and suppliers for turkmenistan-steel-cable-tray-price-list Find whol.

Key Takeaways

A good cable tray in Turkmenistan typically costs between $5 and $30 per meter, depending on material, type, and installation requirements.

Price Range and Material Considerations

The cost of cable trays varies significantly based on the material and design: Steel trays are the most common, offering durability and affordability, generally ranging from $5 to $25 per meter. Aluminum trays are lightweight and corrosion-resistant, suitable for humid or industrial environments, costing around $6 to $30 per meter. Fiberglass (FRP) trays are more expensive, typically $10 to $50 per meter, ideal for aggressive or chemically harsh environments.

Stainless steel trays are the most durable and corrosion-resistant, used in heavy-duty or high-demand industrial settings, often at the higher end of the price spectrum.

Types and Design Impact

Ladder trays support heavy cables and are more expensive. Perforated or wire mesh trays are lighter, cheaper, and suitable for smaller installations. Coatings such as hot-dip galvanizing (HDG) or powder coating increase durability but also raise the upfront cost.

Local Market Context

In Turkmenistan, cable trays are widely available from local suppliers and exporters, such as Jeetmull Jaichandlall, who provide competitive pricing and durable products made from steel or aluminum. The market favors cost-effective solutions with minimal maintenance, making steel and aluminum trays popular choices for both commercial and industrial projects.

Additional Cost Factors

Installation costs vary depending on labor, supports, connectors, and complexity of the system. Shipping and import duties may affect the final price if trays are imported. Bulk orders can reduce per-meter costs significantly.

Summary

For a standard, durable cable tray in Turkmenistan, expect to pay $5–$30 per meter, with steel being the most cost-effective, aluminum slightly higher, and fiberglass or stainless steel at the premium end. Prices can fluctuate based on size, type, coating, and installation complexity, so contacting local suppliers for quotes is recommended.
