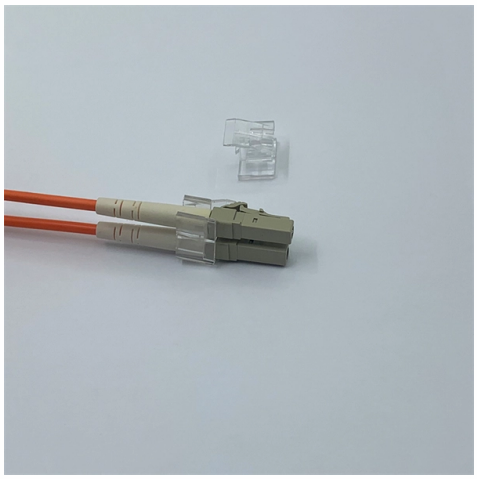
Price of Egyptian Ladder-type Fireproof Cable Trays



Overview

Rovana Trade With a fully equipped factory and expert team, we deliver durable, customized, and reliable solutions for electrical and industrial Cable Tray.

Key Takeaways

Fireproof ladder-type cable trays in Egypt typically range from EGP 400 to EGP 1,200 per meter, depending on material, coating, and load capacity.Overview

Fireproof ladder-type cable trays are designed to support heavy electrical cables while providing enhanced fire resistance, making them suitable for industrial, commercial, and high-risk installations. In Egypt, these trays are commonly manufactured from hot-dip galvanized steel, pre-galvanized steel, or electrostatically painted steel, which affects both durability and price .

Factors Affecting Price
• Material and Fireproof Coating: Steel trays with fireproof coatings or special treatments cost more than standard galvanized trays. Stainless steel options are at the higher end of the price spectrum .

• Tray Dimensions: Width, depth, and side height influence the price. Larger trays that support more cables or heavier loads are more expensive .

• Sheet Thickness: Thickness typically ranges from 0.8 mm to 2 mm. Thicker sheets increase load capacity and cost .

• Accessories: Covers, connectors, angles, and mounting hardware add to the total cost .

© 2026 ALFA PRO COMMUNICATION SYSTEMS (Pty) Ltd - All rights reserved

• Installation Type: Wall-mounted, ceiling-suspended, or floor-mounted systems may affect pricing due to additional support requirements .
Supplier Options in Egypt
• MT Tray Products: Offers ladder-type trays with high load capacity and fire-resistant options, available in hot-dip galvanized or electrostatic finishes .

• Rovana Trade Factory: Manufactures ladder trays with Swedish-approved standards and electrostatic coatings, suitable for industrial projects .

• Delta Steel and Gold Steel: Provide high-quality galvanized ladder trays and accessories, often used in large-scale infrastructure projects .

• United Engineers: Offers detailed price quotes per meter based on tray type, material, and size, making them a reliable source for project-specific pricing .
Estimated Price Range

Based on typical Egyptian market conditions:

• Standard galvanized ladder tray: EGP 400–700 per meter

• Fireproof or coated ladder tray: EGP 700–1,200 per meter

• Stainless steel or heavy-duty fireproof tray: EGP 1,200+ per meter For precise pricing, it is recommended to contact suppliers directly with specifications such as tray width, depth, load requirements, and fireproof rating to obtain a detailed quote . These trays ensure safe cable management, high load support, and compliance with fire safety standards, making them a critical component in industrial and commercial electrical installations in Egypt .
