

Australian Horizontal Cable Tray Manufacturer

Overview

Discover top cable tray manufacturers in Australia like EzyStrut, Burndy CSS, Axelent, Brilltech, and Ozstrut.

Key Takeaways

Leading Australian manufacturers of horizontal cable trays include Blitz Systems, EzyStrut, PowAGroup, and Burndy CSS, offering high-quality, efficient, and compliant solutions for commercial and industrial projects.

Blitz Systems Blitz Systems provides the BT3 Cable Tray and accessories, designed to reduce installation time, minimize labour costs, and improve on-site efficiency. Their solutions include pre-configured systems that eliminate cutting and deburring, offering a clean finish suitable for commercial and light industrial projects. Blitz also offers fire-rated suspension support systems and seismic bracing, ensuring compliance with Australian standards while streamlining installation processes .

EzyStrut EzyStrut manufactures a wide range of cable trays, ladders, and mesh supports, engineered and produced in Australia. Their products include pre-galvanised steel, hot-dip galvanised steel, and aluminium trays, with options for fire-rated and seismic-compliant installations. EzyStrut emphasizes customisation for high-volume or specialised projects, and their EM2+ Mesh Cable Tray comes with pre-installed joiners to reduce labour and installation time .

PowAGroup Global Pty Ltd PowAGroup offers durable, high-quality cable tray systems with a focus on improving on-site efficiency. They provide pre-cut rods and struts, off-site take-offs, and flexible delivery options to align with project timelines. Their services include direct engagement with on-site teams to streamline installation and ensure accurate material quantities .

Burndy CSS Burndy Cable Supports is an Australian manufacturer with facilities in Acacia Ridge and Welshpool. They provide quality cable support systems tailored for commercial and industrial applications, supporting local manufacturing and distribution .

Considerations for Selection

- **Material and Finish:** Choose between pre-galvanised steel, hot-dip galvanised steel, or aluminium depending on environmental exposure and load requirements.
- **Compliance:** Ensure fire-rated and seismic-compliant options if required by project standards.
- **Installation Efficiency:** Pre-cut, pre-assembled, or pre-joined systems can significantly reduce on-site labour and time.
- **Customisation:** For unique layouts or high-volume projects, manufacturers like EzyStrut and PowAGroup offer tailored solutions.
- **Local Support:** Australian manufacturers provide faster delivery, technical support, and compliance with local standards. These manufacturers collectively offer a comprehensive range of horizontal cable tray solutions suitable for commercial, industrial, and specialised installations across Australia.
