Price of hanger rods for cable trays size not specified

Overview

Choose from our selection of hanger rods, including threaded rods, threaded rod fittings for hanging, and more.

Key Takeaways

Hanger rods for cable trays typically range from £2 to £15 per rod, depending on size, material, and type.General Pricing Overview
• Threaded Rod Hangers: Commonly used for suspending wire basket trays, these rods are usually made of pre-galvanized steel and fit sizes from M6 to M12. Prices generally range from £2 to £8 per rod for standard lengths suitable for internal installations .

• Adjustable Hanger Brackets: Brackets that include a threaded rod and nuts for overhead or beam mounting can cost £10 to £15 per unit, depending on tray width and load capacity .

• Bulk or Trade Orders: Suppliers often offer discounts for bulk purchases or trade pricing. For large projects, contacting the supplier directly is recommended to obtain a quote .
Factors Affecting Price
• Rod Diameter and Length: Larger diameters (e.g., M10–M12) and longer rods increase cost.

• Material: Pre-galvanized steel is standard for indoor use, while stainless steel or coated rods for outdoor or corrosive environments are more expensive.

• Tray Type Compatibility: Wire basket trays, ladder trays, and solid-bottom trays may require different hanger designs, affecting price.

• Supplier and Brand: Prices vary between distributors such as RS Components, Rexel, and ETS Cable Components .
Recommendations
• For small installations, standard M6–M8 threaded rods are cost-effective.

• For industrial or heavy-duty applications, consider M10–M12 rods or adjustable brackets to support higher loads.

• Always check supplier catalogs for exact pricing and availability, as prices fluctuate based on material, length, and market conditions. By considering these factors, you can estimate the cost of hanger rods for your cable tray installation and plan your budget accordingly.
