

Currently, there is no publicly documented Bulgarian manufacturer specifically producing PAM4 access switches, but PAM4 technology is widely used in high-speed optical networking. Understanding PAM4 Technology PAM4 (Pulse Amplitude Modulation 4-level) is a modulation technique that encodes two bits of data per clock cycle using four distinct voltage or optical levels, effectively doubling the data rate compared to traditional NRZ (non-return-to-zero) encoding without increasing the baud rate. This makes PAM4 ideal for high-speed interfaces such as 50GE, 200GE, and 400GE, which are increasingly used in access, aggregation, and core networks, particularly in 5G infrastructure.

Access switches equipped with PAM4 technology are typically used in fiber-optic networks to connect end-users to aggregation or core networks. They support high-speed data transmission, low latency, and efficient bandwidth usage, which is critical for modern broadband, enterprise, and 5G mobile networks. PAM4-enabled switches are often integrated with optical line terminals (OLTs) and transceivers that support multi-level modulation for enhanced performance.

Bulgarian Manufacturers and Suppliers

While there is no confirmed Bulgarian company producing PAM4 access switches, Bulgaria has a robust electrical and electronic manufacturing sector, including companies specializing in switches, electrical panels, and automation systems. These companies may collaborate with international semiconductor or networking vendors to integrate PAM4 technology into their products. For sourcing, you can explore: Bulgarian electrical and networking suppliers listed on B2B directories such as Kompas Bulgaria.

International PAM4 switch vendors like Marvell, which provide silicon and network switch platforms that could be integrated by local manufacturers. Datasheet archives for OLTs and PAM4 modules to identify compatible components for custom solutions.

Recommendations

Contact local Bulgarian electrical and networking companies to inquire about custom integration of PAM4 modules into access switches. Consider international PAM4 switch chipsets from vendors like Marvell or Huawei for integration into locally manufactured switch hardware. Review technical datasheets for PAM4 OLTs and transceivers to ensure compatibility with your network requirements.

By combining local manufacturing capabilities with international PAM4 technology, it is possible to develop high-speed access switches suitable for modern optical networks, even if a fully Bulgarian-produced PAM4 switch is not yet commercially available.

Top 14 Network Switch Manufacturers in Bulgaria (2026) | ensun

The company offers a range of network switches, including the Cisco Meraki MS320-24P, a cloud-managed Layer 3 switch featuring 24 PoE+ ports and 4 SFP+ uplinks, designed for easy deployment

Switch, electronic Suppliers from Bulgaria

Access 1,494 verified Switch, Electronic Suppliers in Bulgaria with shipment-level prices, volumes, routes, buyer networks, and verified decision-maker contacts — all backed by bills-of-lading.

Technical companies about switches, sockets in Bulgaria

switches, sockets - all bulgarian technical companies: manufacturers, traders, importers, distributors of switches, sockets. The complete catalog of all bulgarian technical companies.

Access Control

Leading IT/Telecom system integrator in Bulgaria, focusing on design, delivery and implementation of intelligent transport systems, cyber and physical security, networking, early siren warning solutions,

ACM :: Access Control Systems

Comel Soft Multimedia is a Bulgarian company with a 25-year presence on the market of computer and network components, security systems, video surveillance, access control and software

BulgarianIndustry::English

eWON Netbiter LC is a new remote management gateway from HMS Industrial Networks. While regular Netbiter gateways (Netbiter EC) connect machines to the Netbiter Argos web service,

50G PAM4 Technical White Paper

Although PAM4 doubles the bit bearing efficiency compared with NRZ, PAM4 has noise, linearity, and sensitivity issues. This section focuses on test technologies at the physical layer.

bulgaria switch Suppliers & Manufacturers

Product/Service:circuit breakers: up to 63 a moulded case circuit breakers: up to 1000 a contactors (ac~) with rated coil voltage from 24 to 500 v auxiliary contacts control and distributing devices switch

DigiKey Bulgaria | Electronic Parts and Components - Fast Shipping ...

DigiKey is your go-to source for millions of electronic components, many in-stock quantities, fast shipping, and expert support. From design to production, we get technical to help you innovate.

Bulgarian Electrical Switch Suppliers and Manufacturers

Find Electrical Switch Suppliers. Get latest factory price for Electrical Switch. Request quotations and connect with Bulgarian manufacturers and B2B suppliers of Electrical Switch. Page - 1

Bulgaria Access Control Systems & Products Company List

BETAMARK LTD is a leading company on the Bulgarian market, specialized in the design and manufacture of high quality doorphone systems, intercom systems, nurse call hotel panic code locks

Security access control Manufacturer/producer Bulgaria

All suppliers for security access control Manufacturer/Producer Find wholesalers and contact them directly B2B marketplace Find companies now!
