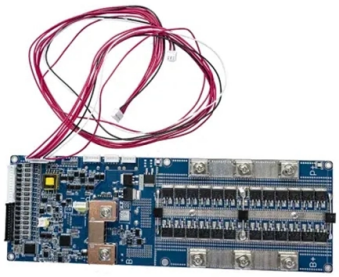
Small electrical distribution box for shopping malls



Overview

Low Voltage Distribution Cabinet Multi Circuit Power Distribution Box. Made of cold-rolled steel sheet with IP30 protection rating, it fits power rooms.

Key Takeaways

Small electrical distribution boxes for shopping malls provide compact, safe, and intelligent power distribution for diverse mall loads.

Overview

Small distribution boxes are designed to receive and distribute low-voltage electricity to various mall systems, including lighting, HVAC, escalators, lifts, fire systems, and tenant equipment ( ). They are compact, energy-efficient, and often integrate intelligent monitoring for real-time fault detection and temperature control ( ).

Types and Features

Fixed Low-

Voltage Cabinets: Suitable for simple distribution lines with fewer transformers; compact and easy to install ( ).

Drawer-

Type Cabinets: Allow easy repair and replacement, ideal for complex distribution lines ( ).

Power-

Controlled Cabinets: Used for motor start, stop, and reverse operations ( ). Combined Cabinets: Integrate multiple functions for high-power distribution requirements ( ). Key Features: Safety: Insulated circuits, leakage, overcurrent, and overvoltage protection ( ).

Compact Size: Small footprint, easy installation, and convenient inspection ( ). Intelligent Management: Remote monitoring via mobile devices, early fault warnings, and temperature adjustment ( ). Customization: Box size, color, and protection class (IP55) can be tailored to mall requirements ( ).

Materials and Brands

Shell Material: Typically steel plate for durability ( ). Brands: ABB, Siemens, Omron, Delixi, Eaton, and Schneider are commonly used for high-quality components ( ). Protection Class: IP55 or higher for dust and water resistance ( ).

Applications

Small distribution boxes are ideal for: Tenant feeders: Powering individual stores or kiosks. Common areas: Lighting, signage, HVAC, escalators, lifts, and fire systems. Future expansion: Designed to accommodate load diversity and additional tenant fit-outs ( ).

Suppliers and Ordering

Fujian Guozhiyun Information Technology Co., Ltd. offers customizable small distribution boxes with OEM services, fast delivery, and inspection guarantees ( ). DISTRO-DIRECT provides modular small distribution boxes with various input/output options and protective breakers ( ). These boxes are typically priced between $218–$499, depending on size, features, and customization ( ).

Conclusion

For shopping malls, small electrical distribution boxes offer a compact, safe, and intelligent solution for managing diverse electrical loads. They can be customized in size, protection class, and features, ensuring operational continuity, safety, and energy efficiency while allowing for future expansion and remote monitoring.
