Standard Stainless Steel Cable Tray Prices

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

Stainless steel cable trays in the UK typically range from £20 to £150 per meter, depending on size, grade, and type.Price Factors

The cost of stainless steel cable trays depends on several key factors:

• Material Grade: 304 stainless steel is standard and slightly cheaper, while 316 stainless steel offers superior corrosion resistance for harsh environments, making it more expensive .

• Tray Type: Options include ladder trays, basket trays, and solid-bottom trays. Wire basket trays are generally lighter and more affordable, while heavy-duty ladder trays cost more due to thicker gauge and structural strength .

• Size and Width: Standard widths range from 50mm to 900mm. Wider trays or longer lengths increase the price .

• Gauge and Duty Rating: Light, medium, and heavy-duty trays differ in wire thickness and load capacity, affecting cost .

• Accessories: Bends, tees, risers, and couplers add to the overall system cost .
Typical Price Ranges
• Small wire basket trays (100mm width, 3m length, 304 stainless steel): approximately £20–£40 per meter .

• Medium ladder trays (300–450mm width, 3m length, 304 or 316 stainless steel): around £50–£90 per meter .

• Heavy-duty or large-width trays (600–900mm, 316 stainless steel): can cost £100–£150 per meter or more, especially for offshore or industrial-grade applications .
Purchasing Considerations
• Bulk Orders: Many suppliers offer trade or bulk pricing, which can reduce the per-meter cost .

• Delivery: Some UK suppliers provide next-day delivery or free delivery for orders over £100 .

• Environment: For outdoor, marine, or chemical-exposed installations, 316 stainless steel is recommended despite higher cost .

• Supplier Support: Companies like Cable Joints, RS Components, Direct Channel, and CMW Ltd provide technical support, datasheets, and configuration advice for complex installations . By considering material, size, type, and quantity, you can estimate costs accurately and select the most suitable stainless steel cable tray for your project.
