1. Metsec (UK) Metsec produces a wide range of steel cable tray systems, including medium and heavy-duty trough-type trays. Their products are available in mild steel pre-galvanised, hot-dip galvanised, and stainless steel (316L) finishes. Metsec trays conform to BS EN 61537 standards and are supported by independent testing. They offer bespoke systems, CAD design services, and a full range of accessories for bends, tees, and connectors, ensuring complete cable management solutions for industrial installations . 2. MP Husky (USA) MP Husky manufactures hot-dipped galvanized steel, mill galvanized steel, and stainless steel cable trays, including trough-type systems. Their products meet or exceed NEMA, UL, CTI, and CSA standards. MP Husky emphasizes reliability, structural strength, and long-term durability, serving industries across the United States with both standard and custom cable tray solutions . 3. Armorduct Systems (UK) Armorduct specializes in steel cable management systems, including cable trays, baskets, and trunking. They provide both standard and bespoke cable management solutions, manufactured in-house. Their steel trays are designed for industrial and commercial applications, offering flexibility in design and installation . 4. JLH Electric (China) JLH Electric is a professional manufacturer of steel cable trays, perforated trays, wire mesh trays, and accessories. Their products are certified under ISO 9001:2015, ISO 14001, ISO 45001, and CE, and they operate a 10,000 m² factory equipped with advanced machinery for shearing, bending, CNC punching, welding, and plasma cutting. JLH Electric provides high-quality, cost-effective solutions for global customers, including custom trough-type cable trays .

Considerations for Selection

• Material and Finish: Mild steel, hot-dip galvanised, or stainless steel depending on environmental conditions.

• Standards Compliance: Ensure trays meet relevant standards such as BS EN 61537, NEMA VE 1, UL, or CSA.

• Customization: Some manufacturers offer bespoke designs for unique installation requirements.

• Support and Accessories: Availability of bends, tees, covers, and connectors for complete system integration.

• Global Availability: UK, USA, and China-based manufacturers provide options for local or international supply. These manufacturers provide reliable steel trough-type cable trays suitable for industrial, commercial, and infrastructure projects, with options for both standard and custom configurations.
