

Cable splice box models and prices

Overview

All Categories Fibre optic cables (1686) Fibre optic sockets and plugs (272) FTTx (59) LWL accessories (130) Splice boxes, etc.

Key Takeaways

Splice boxes range from basic 12-port units at €45 to high-capacity 96-port modular systems up to €850, with prices influenced by quality, modularity, and fiber capacity. Overview of Splice Box Models1. Standard Affordable Splice BoxesEntry-level boxes start at around €45 for 12-port systems.

Typically have limited modularity and lower packing density (48 fibers per rack unit). May incur additional costs due to longer installation times and lack of pre-configuration. 2.

High-

Quality Modular Splice Boxes

Prices can reach €850 for 96-port systems. Features include modular design, higher fiber density, and compliance with IEC 61754 standards. Reduced installation time and flexibility for future upgrades (e.g., switching connector types) make them cost-effective for large-scale deployments.

3.

Phoenix Contact FD

X 20 SeriesCompact, uniform design suitable for DIN rail mounting. Provides generous interior space for secure fiber connections and supports high-speed data transmission. Offers flexible mounting and compatibility with patch cables and FO termination kits.

4.

Fiber-

Products Professional Series

Available in 1U to 4U systems with LC, SC, E2000, and MPO connectors. Extendable, pre-assembled, and capable of handling up to 96 fibers per 1U.

Designed for FTT

H, FTTB, data centers, and industrial applications with a 5-year warranty. 5. McMaster-Carr SelectionOffers over 2,400 splice box products in various styles and sizes, suitable for immediate delivery.

Price Considerations

Initial acquisition cost is only part of the total expense. Installation time: Low-cost boxes may require 25 extra minutes per box, adding labor costs (~€27 per box at €65/hour) for medium-sized projects. Modularity: Fixed connector types in cheaper boxes may require full replacement when upgrading technology, potentially costing thousands in hardware and installation.

Long-term efficiency: High-quality modular boxes save rack space and reduce installation time, often paying for themselves within 12-18 months.

Summary

When selecting a splice box, consider fiber capacity, modularity, connector type, and installation efficiency alongside the purchase price. For small projects, affordable 12-48 port boxes may suffice, while large-scale deployments benefit from modular 96-port systems that reduce labor and future upgrade costs. Manufacturers like Phoenix Contact and Fiber-Products offer reliable options across this spectrum, with prices ranging from €45 to €850 depending on features and capacity.

Affordable Splice Boxes | Quality vs Price | Fiber Products

Compare splice box prices and quality standards. Buy affordable modular splice modules with 96 fibres/RU, 5-year warranty, and professional support for FTTH networks.

Splice Boxes | McMaster-Carr

Select the right electrical enclosure for your environment and the accessories you'll need to get it mounted and connected. Choose from our selection of splice boxes, including over 2,400 products in

Splice boxes | Phoenix Contact

Splice boxes ensure continuously reliable real-time data transmission. With their compact and uniform design, the splice boxes for both the DIN rail and 19" mounting provide ample interior space for the

Distributors: Splice Boxes & Optical Network Terminal Boxes

Splice boxes, also known as fiber optic splice enclosures or fiber splice closures, are essential components in fiber optic networks. Their primary function is to protect and manage the spliced fiber

Fibre optic cable distribution | Splice boxes | LAPP Online Shop

Our splice boxes are used to securely connect and distribute fibre optic cables by protecting spliced glass fibres from external influences. They also enable easy maintenance and repair of the fibre optic

Compact FO splice boxes for DIN rails

Future-proof high-speed data transmission: Splice boxes from Phoenix Contact ensure continuously reliable real-time data transmission. With their compact and

Fiber Splice Cassettes Types Prices & Technical Specifications

So-called hybrid splice boxes do not only ensure data transmission via copper cables RJ45 or fiber optics, but they also ensure the power supply. That becomes especially important when a splice box

Splice boxes | Phoenix Contact

Splice boxes for future-proof data transmission Splice boxes ensure continuously reliable real-time data transmission. With their compact and uniform design, the splice boxes for both the DIN rail and 19"

Distributors: Splice Boxes & Optical Network Terminal Boxes

Distributors: Splice boxes, termination boxes & accessories Comprehensive selection of splice boxes, trays and more for your fiber optic network Splice boxes and splice distributors are essential for a

Fiber Optic Splice Closures — Dome & Inline, 16-384

22 models of fiber optic splice closures. Dome type up to 384 cores, inline type up to 288 cores, horizontal and vertical options. IP68 rated for direct burial, aerial, and

Pull Boxes & Handholes for Underground Utility & Electrical

Our pull boxes perform to make your underground electrical and telecommunications project safe and easy. Browse our variety of underground junction boxes for your electrical and cable applications.

Optical Fiber Mechanical Splices from 3M, Corning, AMP

High quality optical fiber mechanical splices such as 3M Fibrlok, Corning Camsplice, AMP CoreLink, Siemon UltraSplice, and more. All In Stock.

Splice Closures | Fibertronics, Inc.

Discover a diverse selection of both horizontal and vertical splice closures, engineered to provide secure, reliable protection for fiber optic splicing applications. These enclosures are essential for

Fiber Splicing

Multilink Starfighter Splice Enclosure - No Trays - 2000-F Spec Sheet The Starfighter 2000-F is a medium capacity fiber optic splice enclosure designed for a majority of splicing applications in above

12 Port Fiber Splice Distribution Box for 1x8 Mini Splitter

The 12 port fiber splice distribution box is a compact wall-mount enclosure designed for splice-only distribution in FTTH and P2P networks. Designed without adapter slots, this enclosure provides a
