

Complete Price List for China Unicom Gigabit Optical Cables

Overview

The unit price list presents the codes, descriptions, and unit amounts for various services related to fiber optic installation.

Key Takeaways

China Unicom gigabit optical cables and modems typically range from approximately 200 to 600 CNY for consumer-grade GPON devices, with bulk fiber optic cable pricing varying by type and length. Optical Modems for Gigabit Broadband

China Unicom provides GPON and EPON optical modems for gigabit broadband connections. A popular consumer device, the Bell G-140W-UG GPON optical modem, supports four Ethernet ports, one telephone port, and 2.4 GHz Wi-Fi. Prices for such modems on platforms like Taobao generally range from 200 to 600 CNY, depending on region and vendor . Installation often requires registration with China Unicom and may need a technician to unbind older modems if upgrading from previous devices .

Fiber Optic Cable Pricing

The cost of China Unicom fiber optic cables depends on type (FTTH, ADSS, outdoor, indoor) and length. Bulk orders through distributors or OEM manufacturers can reduce costs significantly. For example, sourcing directly from factory distributors allows for custom specifications and competitive pricing, especially for large-scale projects . Alibaba and Made-in-China platforms list cables suitable for FTTH, 5G, and LAN applications, with prices varying by material, shielding, and length .

Copper and Structured Cabling

For internal network setups, China Unicom also offers Category 5e, 6, and 7 cables capable of gigabit Ethernet transmission. Prices vary by category and shielding type, with higher-category cables (e.g., Cat 7 SFTP) designed for industrial or high-bandwidth applications. These cables are suitable for home, office, or campus networks and can support full-duplex gigabit speeds.

Key Considerations

- Regional differences: Prices and available models may vary by province in China.
- Installation: Some optical modems require technician assistance for registration.
- Bulk orders: Ordering directly from manufacturers or distributors can reduce per-meter cable costs.
- Cable type: Outdoor, indoor, and industrial-grade cables differ in price due to materials and shielding. For precise pricing, it is recommended to contact China Unicom service centers or authorized distributors for a detailed quote based on your location, cable type, and quantity requirements.
