Custom-made Egyptian mesh cable trays

Overview

Cable Tray Products: 5 Best Trays, Ladders & Trunks Browse our full range of cable tray products in Egypt: Cable Trays, Cable Ladders, Cable Trunks & Wire.

Key Takeaways

Custom-made mesh cable trays in Egypt are priced based on material, dimensions, load capacity, and finish, with suppliers offering tailored quotations for each project.

Price Factors

The cost of custom mesh cable trays in Egypt depends on several key factors: Material: Common options include galvanized steel, stainless steel, aluminum, and PVC-coated steel. Stainless steel and aluminum are generally more expensive due to corrosion resistance and durability. Dimensions and Load Capacity: Tray width, depth, and thickness (typically 1.

0 mm to 3. 0 mm) influence the price. Heavier-duty trays designed for high cable loads cost more.

Finish and Coating: Hot-dip galvanization, electrostatic painting, or PVC coating adds to the cost but improves longevity and suitability for outdoor or corrosive environments. Customization: Special designs, perforation patterns, bends, junctions, and accessories (covers, risers, connectors) are priced individually. Quantity and Project Scope: Bulk orders or large-scale industrial projects may reduce per-unit cost, while small custom orders may be higher.

Typical Price Range

While exact prices vary by supplier and project specifications, custom mesh cable trays in Egypt generally range from approximately 400 to 1,200 EGP per meter for standard galvanized steel trays. Stainless steel or heavy-duty trays can exceed 2,000 EGP per meter, depending on thickness and load requirements.

Leading Egyptian Suppliers

Several companies specialize in custom cable trays in Egypt: MetalEgypt: Offers a full range of cable trays and accessories with custom specifications for industrial and commercial projects.

M

T Tray (Metal Tech): Produces perforated trays, ladders, and trunks with high load capacity and lightweight designs.

M

S Steel (Metal Store): Provides mesh cable trays with CAD/CAM precision, hot-dip galvanization, and electrostatic painting. Rovana Trade: Supplies customized cable trays, ladders, and support systems with full installation services across Egypt. El Masrya El Almanya and Delta Steel: Offer competitive pricing and rapid production for industrial and commercial projects.

Recommendation

For an accurate price, it is best to request a customized quotation from suppliers, providing details such as tray length, width, material, load requirements, and any special accessories. This ensures the tray meets your project needs while reflecting the most precise cost. By considering material, load, finish, and supplier options, you can select a cost-effective and durable mesh cable tray solution suitable for your electrical or data infrastructure project in Egypt.
