

D-Link 24-port network patch panel

Overview

Organize your cabling system with D-Link 24-Port Patch Panel|ideal for Cat5e to Cat7 networking in rack setups. Order online.

Key Takeaways

The D-Link 24-port patch panel is a Cat6 fully loaded 1U panel designed for Gigabit networks, offering organized cable management, IDC termination, and front RJ45 ports with dust protection.

- **Port Configuration:** 24 RJ45 ports, fully loaded for Cat6 cabling, supporting Gigabit Ethernet speeds up to 1000 Mbps .
 - **Front Panel Design:** Includes a label field for easy port identification and RJ45 sockets with smart shutters to protect against dust .
 - **Rear Cable Management:** Equipped with a metal cable management bar to secure and organize cables, ensuring neat installation .
 - **IDC Termination:** Comes with IDC termination caps for secure wire placement, compatible with 568A and 568B wiring standards .
 - **Cable Compatibility:** Accepts solid or stranded cables with diameters from AWG23 to AWG26, suitable for Krone or 110 punch-down tools .
 - **Durability and Testing:** Each panel is tested for performance (Fluke tested) and built with high-quality materials for long-term reliability .
- Installation and Usage**
- **Mounting:** Standard 1U rack-mountable design fits most server racks and network cabinets .

- **Wiring:** Supports both 568A and 568B wiring schemes, making it flexible for different network setups .
 - **Tools Required:** Compatible with standard punch-down tools for IDC termination, ensuring secure and efficient installation .
- Additional Considerations
- **Future-Proofing:** Fully loaded Cat6 design ensures compatibility with current and future Gigabit networks .
 - **Optional Upgrades:** Some models allow keystone jack customization for Cat5e, Cat6, or Cat6A modules, providing flexibility for network expansion .
 - **Shipping and Support:** Available from multiple online retailers with options for nationwide delivery and manufacturer-backed support . The D-Link 24-port patch panel is ideal for small to medium-sized LANs, data centers, or office networks, providing a professional-grade solution for organized, high-speed network connectivity .
