Direct sales from Dutch low-voltage distribution box manufacturer

Overview

Low-voltage electrical distribution products and systemsDiscover our full range of safe and reliable solutions for low voltage electrical distribution prod.

Key Takeaways

Dutch manufacturers like Batenburg Energietechniek, Voet, and Logstrup offer direct sales of modular low-voltage distribution boxes for industrial, public, and infrastructure applications.

Key Manufacturers and Offerings

Batenburg Energietechniek specializes in public lighting distribution cabinets and low-voltage distribution systems. Their products are modular, compact, and designed for various applications including street lighting, EV charging, and building energy networks. Cabinets are available in stainless steel or plastic, with IP-2X or Halyester protection, and feature flexible rail designs for easy installation and heat management.

Voet provides low-voltage distributors suitable for industrial, construction, and emergency applications. Their systems include grounding and short-circuit protection, are interconnectable for larger networks, and range from 125 A to 7000 A. Voet offers rapid deployment, certified installation, and 24/7 technical support, with fast delivery across the Netherlands.

Logstrup manufactures high-quality modular low-voltage switchboards for demanding industries. They focus on tailored solutions for LV projects, ensuring robust design and compliance with safety standards.

Direct Sales and Support

These manufacturers typically offer direct sales to businesses and contractors, providing consultation for project-specific requirements. They can supply fully assembled cabinets, modular components, or customized switchboards. Many also provide installation guidance, technical support, and maintenance services.

Additional Supplier Resources

For broader sourcing, platforms like Europages list Dutch suppliers of wiring and distribution boxes, allowing direct contact with wholesalers and manufacturers across Europe. This can be useful for bulk orders or specialized industrial applications.

Considerations for Buyers

Modularity and customization: Ensure the cabinet design fits your application, whether for public infrastructure, industrial use, or temporary setups. Safety and compliance: Verify grounding, short-circuit protection, and adherence to Dutch and EU low-voltage standards. Delivery and support: Check for local delivery options, installation services, and after-sales support.

By contacting these manufacturers directly, you can obtain tailored solutions, competitive pricing, and reliable technical support for low-voltage distribution projects in the Netherlands.

Low-voltage distributors for safe power distribution

From industrial uses to power outages - our low-voltage distributors provide reliable power distribution whenever you need it. With power distribution box (OVK) ranging from 125 A to 7000 A, we offer

Low Voltage Distribution Source Factories

Connect with trusted low voltage distribution source factories! We select manufacturers offering IEC/EN certified distribution systems, modular design, load distribution optimization, and fast lead times.

ExportHub: Netherlands B2B Marketplace & Dutch Manufacturers

ExportHub is a leading Dutch product sourcing and suppliers directory connecting Dutch manufacturers, suppliers, traders and wholesalers with worldwide buyers from the international market.

Netherlands Control Cabinet Power Distribution Equipment Low

The price of our distribution cabinet is determined comprehensively according to its specifications, configuration, quantity and other factors.Please contact our sales team for specific prices, and they

Low Voltage Products | Low Voltage Products | ABB

ABB provides a full range of low voltage solutions to connect, protect, control and measure a wide range of electrical installations, enclosures, switchboards, electronics and electromechanical

Low voltage electrical distribution products | Schneider Electric

From circuit breakers and buses to enclosures, panel boards, and switchboards, we offer a full range of safe, reliable solutions for low-voltage electrical distribution applications.

Home | Elsteel

From the smallest terminal box to the largest distribution boards and motor control centres. Elsteel is part of the Installation business area in KAMIC Group, a privately owned Swedish corporate group
