

European Cable Tray Price Quote

Overview

Eurostrut Cable Trays | cable tray, cable route and NATO tray Cable trays for industrial and marine use. Includes distribution trays, cable routes and NATO.

Key Takeaways

European cable tray prices typically range from €1.20 to €9.60 per meter, depending on material, type, and specifications. Price Overview

- **Galvanized Steel Trays:** Standard and heavy-duty trays for industrial applications cost approximately €1.20 to €9.60 per meter, with prices influenced by thickness, width, and load capacity. Bulk orders often require a minimum of 200 meters, and suppliers include ABB, Eaton, Legrand, and Atkore International .
- **Wire Mesh Trays:** Popular in data centers and IT infrastructure, these trays are priced higher due to specialized design and ventilation features, supporting Industry 4.0 and hyperscale data center requirements .
- **Plastic and Halogen-Free Trays:** Used in environments requiring fire safety and low smoke emissions, these trays comply with DIN EN 61537 and are suitable for indoor and outdoor installations .

Factors Affecting Pricing

- **Material:** Steel (galvanized or stainless) is more expensive than plastic but offers higher load capacity and durability.
- **Tray Type:** Ladder-type, solid-bottom, and perforated trays vary in cost based on structural complexity and ventilation needs .
- **Regulatory Compliance:** EU standards, including CPR and DIN EN 61537, influence design and material choice, impacting price .

- **Order Volume:** Larger orders typically reduce per-meter cost, especially for industrial-scale projects .
 - **Special Features:** Corrosion resistance, fire protection, and sustainability certifications can increase pricing for premium segments .
- Supplier Options in Europe
- **Eurotray Support Systems:** Offers a range of mechanical support and cable tray solutions for industrial and commercial installations .
 - **Ekabel24:** Provides galvanized steel, stainless steel, and halogen-free plastic trays, suitable for contractors, industrial facilities, and research centers .
 - **Global Brands:** ABB, Eaton, Legrand, and Atkore International supply standardized trays for large-scale projects .

Market Trends

The European cable tray market is mature but evolving, with steady demand from traditional industries and growth driven by digitalization, renewable energy projects, and smart city initiatives. Premium trays with enhanced fire resistance and sustainability credentials are increasingly capturing market share, while standardized solutions remain essential for large-scale industrial and data center projects . For a precise quote, it is recommended to contact suppliers directly with specifications including tray type, material, length, load requirements, and compliance needs, as prices can vary significantly based on these factors.
