

Fiber Optic Cable Bracket Manufacturer Price Inquiry

Overview

Fiber Hook Pole Bracket serves as an essential part in FTTH (Fiber to the Home) and outdoor fiber optic installations.

Key Takeaways

Fiber optic cable brackets are available from multiple manufacturers with prices varying by material, type, and order volume, including OEM and wholesale options.

Key Manufacturers and Suppliers

- MefiberOptic MefiberOptic offers a wide range of fiber optic cable clamps and brackets suitable for ADSS or drop cable installations. Their products are made from UV-resistant thermoplastic, galvanized steel, aluminum alloy, and stainless steel, and undergo rigorous testing for tensile strength, temperature cycling, aging, and corrosion resistance. OEM services are available, and pricing can be calculated based on sample or configuration requests .
- Essentra Components US Essentra provides fiber optic holders, brackets, and clips designed for secure cable management. Their products include splice holders, fiber guides, and mounting brackets, compatible with telecom, datacom, and industrial applications. Prices vary depending on configuration, and they offer free CAD drawings, samples, and custom solutions for bulk orders .

- **China-Based Manufacturers (Made-in-China)** Numerous Chinese suppliers offer fiber cable brackets at wholesale prices, including pole line hardware, anchor brackets, and customized OEM/ODM options. These suppliers provide competitive pricing directly from factories, often with quality certifications and compliance with industry standards. Buyers can request personalized quotes based on quantity and specifications .
- **JERA Line** JERA Line manufactures fiber optic accessories including brackets, clamps, and splitters. Their products adhere to ISO 9001 and international testing standards (EN-50483, IEC 61238-1), ensuring reliability and durability. Pricing is typically available upon inquiry, especially for bulk or customized orders .
- **FiberCheap** FiberCheap specializes in anchor and suspension brackets for wall or pole installations. Their products are tested for high pulling and hanging strength and are offered at factory prices with options for custom and wholesale orders. They have over 15 years of manufacturing experience .

Pricing Considerations

- **Material:** Stainless steel and aluminum alloy brackets are generally more expensive than thermoplastic or galvanized steel.
- **Type and Size:** Anchor, suspension, and splice brackets vary in price depending on load capacity and design.
- **Order Volume:** Wholesale and bulk orders significantly reduce per-unit cost.
- **Customization:** OEM/ODM services may add to the cost but allow tailored solutions for specific projects. For accurate pricing, it is recommended to contact manufacturers directly with your specifications, quantity, and material preferences to receive a detailed quote.
