Key Takeaways

Fiber optic pigtail connectors typically range from \$1 to \$10 per piece, with complete 48-port patch panel kits priced around \$150–\$250 depending on connector type and fiber specification. Individual Pigtail Connectors

Fiber optic pigtails are available in SC, LC, FC, ST, and E2000 connector types, and in singlemode or multimode variants such as OM1, OM2, OM3, and OM4 . Prices for individual pigtails generally range from \$1 to \$10 per unit, depending on the connector type, fiber type, and length. High-quality, pre-tested pigtails with polished connectors and low attenuation are typically at the higher end of this range .

Patch Panels and Box Kits

For larger installations, fiber optic box kits or patch panels that include multiple pigtails are available. For example, a 48-port fiber optic patch panel with SC, FC, or LC pigtails can cost approximately \$150–\$250, including adapters and mounting hardware . These kits often come with 48 pigtails (LC 96pcs) and are designed for rack-mounted setups, providing a convenient solution for network distribution.

Custom and Bulk Orders

Suppliers like EFB-Elektronik and Fiber4u offer customized pigtails and bulk pricing for larger projects . Prices can vary based on fiber length, connector type, and color coding, and special project pricing may be available for orders exceeding standard quantities. Many suppliers also provide fast delivery from stock and flexible options for single-color or multicolor pigtails.

Summary

- Single pigtail connector: \$1-\$10 each
- 48-port patch panel kit with pigtails: \$150-\$250
- Custom or bulk orders: Pricing varies; contact supplier for quotes For precise pricing, it is recommended to check supplier websites or request a quote, as costs can fluctuate based on fiber type, connector type, and shipping location.
