

High-density hot-swappable power distribution unit NEMA4X available now

Overview

Power Distribution Units (PDU) Available in capacities ranging from 300 kVA to 2,000 kVA in Copper or Aluminum with single or multi-output voltages, deliver.

Key Takeaways

Raritan PX4 and Larson Electronics NEMA 4X PDUs provide high-density, hot-swappable power distribution solutions suitable for industrial and data center environments. Raritan PX4 PDU

The PX4 PDU is designed for high-density rack deployments with patented HDOT outlets that combine C13 and C19 functionality, accommodating both C14 and C20 plugs in a single outlet. It supports hot-swappable operation, allowing live replacement of individual outlets without interrupting power to connected equipment. The PX4 also offers real-time power monitoring with $\pm 0.5\%$ accuracy, tracking metrics such as total harmonic distortion, reactive power, and inrush current. Its modular design maximizes outlet density in a 42U rack, reducing the need for multiple PDUs and simplifying future equipment upgrades.

Larson Electronics NEMA 4X PDU

For industrial and outdoor applications, the Larson Electronics PDU-PNL-SS-3P-MCB-400A-480Y.277-N4X provides a NEMA 4X-rated enclosure, protecting against dust, dirt, and moisture. This 400-amp, three-phase 480Y/277V AC panel includes 42 circuits and a main circuit breaker. The stainless steel enclosure supports plug-in mounting, lockable access, and optional configurations on dolly carts or stand-alone frames for flexible deployment. It is UL 1640 certified, ensuring compliance with industrial safety standards .

CoolIT CHx2000 CDU

While primarily a liquid-to-air cooling distribution unit, the CHx2000 features hot-swappable pumps and full monitoring capabilities, making it suitable for high-density data center environments where both power and thermal management are critical. It supports up to 2000 kW capacity and integrates seamlessly with existing infrastructure .

Summary

- Raritan PX4: High-density, hot-swappable outlets, real-time monitoring, ideal for data centers.
- Larson Electronics NEMA 4X PDU: Rugged, industrial-grade, NEMA 4X enclosure, 42 circuits, 400A three-phase.
- CoolIT CHx2000: Hot-swappable pumps, high-capacity liquid-to-air cooling, suitable for high-density racks. These options provide immediate availability for environments requiring high-density, hot-swappable, and NEMA 4X-rated power distribution.

Article Content

Power Distribution Units (PDU)

Available in capacities ranging from 300 kVA to 2,000 kVA in Copper or Aluminum with single or multi-output voltages, delivering

Eaton Rack PDU G4

Industry-leading, high-density 0U mounted PDU that provides 24, 42 or 48 evenly distributed outlets on a 42U chassis. Its low-profile

Rack PDU | Power distribution units for server racks | Eaton

Providing reliable and cost effective power distribution, the Basic PDU offers IEC outlet grips, tool-less installation in server racks,

XPDU Power Distribution Unit | Xtreme Power Conversion

Reliable rack-level power distribution designed for data centers, network closets, and high-density IT environments requiring flexible

NEMA Ratings for Enclosures

NEMA 3R Enclosures Designed for outdoor use, offering protection against rain and sleet. Commonly used for housing power

A Guide To Enclosure Types and NEMA Ratings

Read this guide to enclosure types and NEMA ratings so you can ensure your electrical equipment meets the proper

Reliable performance in the harshest applications

Withstand tough applications: Apply Eaton NNEMA Type 4X transformer enclosures in environments where equipment can suffer

Outdoor NEMA 4X-Rated Tube Distribution Units

The result is a pathway capable of housing and protecting FutureFLEX® Air-Blown Fiber® bundles designed and installed to support

NEMA 4X Enclosures

Available in four sizes, the OCC NEMA 4X Enclosures are indoor/outdoor rated cabinets for patching and/or splicing 12 to 96 fiber

Pow-R-Line Xpert 4X distribution panelboards

Eaton's Pow-R-Line Xpert 4X (PRL4X) distribution panelboards provide a compact and flexible solution for

NEMA 4X Enclosure Manufacturer | DDB Unlimited®

NEMA 4X Enclosure and Cabinet Manufacturer. Indoor and outdoor enclosures for Telecommunication,

NEMA 4X Enclosures | NEMA 4 Rated Electrical Boxes

NEMA 4X electrical enclosures are available in plastic, aluminum, steel, and stainless steel. With a variety

Amazon : Nema 4x Disconnect

Browse a wide selection of NEMA 4X disconnect switches. Featuring durable polycarbonate and stainless steel construction for

Hot-Swap UPS Systems & PDUs | Eaton

Eaton offers Hot-Swap PDUs, which make any UPS hot-swappable, as well as Hot-Swappable Modular UPS Systems, which

High Density PDUs for Data Centers

High Density Cyber Secure iPDU Introducing the industry's most innovative energy metering rack power distribution units (PDUs)

Nema Enclosures | Industrial Electrical Enclosures Manufacturer

Nema Enclosures manufactures custom and standard electrical enclosures designed to meet your project's specifications,

NEMA Ratings for Enclosures

NEMA 3R Enclosures Designed for outdoor use, offering protection against rain and sleet. Commonly used for housing power
