

How much does a Huijue fiber optic coupler cost

Overview

Optical Fiber Connector Explore our Optical Fiber Connector collection, featuring main products like Optical Splitter, Fiber Patch Cord, and 695+ more item.

Key Takeaways

The cost of a Huijue fiber optic coupler varies depending on order quantity, connector type, and shipping, typically ranging from a few dollars per unit for bulk orders to higher prices for small quantities or specialized connectors.

Price Range and Factors

Huijue fiber optic couplers, including SC/UPC, SC/APC, and LC/UPC types, are sold primarily through B2B platforms and direct manufacturer channels. The unit price depends heavily on bulk order quantity—larger orders generally reduce the per-unit cost, while small orders or single units are more expensive per piece. Prices also vary based on: Connector type: SC, LC, or ST adapters, and whether they are UPC or APC polished.

Fiber core count: Single-mode or multi-mode couplers may differ in price. Importing country and shipping costs: Customs, taxes, and logistics can affect the final price. Quality and certification: Premium or waterproof versions may cost more.

Typical Cost Estimates

While exact retail prices are not publicly listed, B2B listings suggest that standard Huijue fiber optic couplers can cost anywhere from \$2 to \$10 per unit for bulk orders, with prices decreasing as order volume increases. Specialized or high-performance couplers may exceed this range. For small-scale purchases or single units, prices may be higher due to shipping and handling fees.

Purchasing Tips

Contact the manufacturer or authorized distributor for a quote based on your required quantity and connector type. Compare multiple suppliers to ensure competitive pricing. Consider shipping and import fees if ordering internationally, as these can significantly affect total cost.

Check for certifications to ensure compatibility and performance standards. By considering these factors, you can estimate the cost of Huijue fiber optic couplers for your project and plan your budget accordingly.

What Is Fiber Optic Coupler and How Does It Work?

Fiber optic couplers are used to split or combine optical signals in optical fiber systems. It contains various types like optical splitters, optical combiners and optical couplers. This tutorial

Fiber Optic Patch Cord

Explore our Fiber Optic Patch Cord collection, featuring main products like Optical Splitter, Fiber Patch Cord, and 695+ more items from Hai'an Huijue Network Communication Equipment Co., Ltd. on

Fiber Optic Components | Leading Network Server

Founded in 2002, Huijue Network is a high-tech service provider integrating intelligent network communication equipment and computer intelligent network

Fiber Couplers - optical fiber

Fiber couplers are fiber devices for coupling light from one or several input fibers to one or several output fibers, or from free space into a fiber.

Demystifying the Fiber Optic Coupler: The Unsung Hero of Light

A fiber optic coupler splits or combines light signals in optical networks, improving data flow, reliability, and network flexibility for various applications.

Fiber Optic Connections and Couplers | Springer Nature Link

Fiber connections such as connectors and splices and the associated intrinsic and extrinsic losses are described. The construction of couplers and branches, including the associated

What Is Fiber Optic Coupler?

What is a fiber optic coupler? A fiber optic coupler is a passive device that distributes or combines optical signals between two or more fibers. It enables signal sharing in multiple directions,

Does Huijue manufacture fiber optic cables

Overview Our production base is equipped with eleven assembly workshops, such as workshops of sheet metal, patch cord, fiber optic cable etc. Established in 2001, Shanghai Huijue Network
