

How much does a meter of single-mode two-core optical fiber cost

Overview

Single-mode fiber (OS2) is typically used for long-distance networks and has a slightly lower raw cost per meter.

Key Takeaways

The price of a single-mode dual-core (duplex) optical fiber typically ranges from \$0.30 to \$2.80 per meter, depending on cable type, brand, and protection features. Price Range and Factors

- Standard indoor single-mode duplex cable: Around \$0.30 to \$1.50 per meter, suitable for office or data center runs with simple routing and LSZH or PVC jackets .
- Outdoor or armored single-mode duplex cable: Can cost \$1.20 to \$3.00 per meter, with armored or gel-filled variants for harsh environments or direct burial .
- Premium brand fiber (e.g., Corning): May push the price toward the higher end of the range due to lower attenuation and higher quality glass .

Key Price Drivers

- Fiber Count: Dual-core (2-core) cables are cheaper than higher-count cables like 12-core or 24-core .
- Cable Construction: Loose-tube, tight-buffered, armored, or gel-filled designs affect material and production costs .
- Jacket Material: LSZH jackets are common for indoor safety, while PE or UV-resistant jackets are used outdoors, increasing cost .

- Installation Environment: Outdoor, aerial, or direct-burial installations require more robust protection, raising the per-meter price .

- Pre-Termination: Factory-terminated cables cost more upfront but reduce on-site splicing labor, which can save overall project costs .

Practical Considerations

- For short indoor runs, expect to pay closer to \$0.30–\$1.50 per meter.

- For long outdoor or armored installations, budget \$1.50–\$3.00 per meter.

- Bulk orders or direct manufacturer purchases can reduce costs by 20–30% compared to retail . In summary, a single-mode dual-core optical fiber is generally affordable for standard applications, but the final cost depends on cable protection, brand, and installation requirements.

Cost of Fiber Optic Cable: Pricing Guide (2026)

Discover the cost of fiber optic cable in this pricing guide. Learn material prices, installation factors, and what impacts

How Much Does Fiber Optic Cable Cost? 2025 Factory Price Guide

Single-mode fiber (OS2): This is the industry workhorse. In 2025, the base glass price has stabilized. You are looking at \$0.30 to

2 core single mode fiber optic cable price – Single Mode Fiber

When evaluating the ****2 core single mode fiber optic cable price****, it's important to compare not just the sticker price,

Fiber Optic Cable Pricing Guide: Factors That Affect Cost and How to ...

Single-mode fiber (OS2) is typically used for long-distance networks and has a slightly lower raw cost per meter.

2 Core Fiber Optic Cable Price Per Meter with OWIRE Solutions

As of the current market trends, the ****2 core fiber optic cable price per meter**** generally falls between \$0.30 and

Fiber Optic Cable Cost Per Meter for U.S. Buyers 2026

Fiber optic cable cost per meter varies by type (single-mode vs multi-mode), durability, and installation conditions. The

How Much Does It Cost to Run Fiber Optic Cable per

Learn the details on fiber installation cost and the long-term benefits of this high-speed,

Single-mode optical fiber

In fiber optics, a quadruply clad fiber is a single-mode optical fiber that has four claddings. Each
