

How much does a steel cable tray cost in Chad

Overview

Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation.

Key Takeaways

Steel cable trays in Chad are available from local suppliers like Brilltech Engineers, with prices typically ranging from \$15 to \$50 per meter depending on type, size, and material.

Overview

Steel cable trays are widely used in industrial, commercial, and residential electrical installations to support and protect cables. In Chad, suppliers such as Brilltech Engineers Pvt. Ltd offer a variety of cable trays including mild steel, perforated, ladder, and galvanized steel trays tailored to different applications and environmental conditions.

These trays are designed for durability, corrosion resistance, and ease of installation.

Price Estimates

While exact prices in Chad are not publicly listed, regional and international sources provide a reference range: Ladder Steel Cable Trays: \$20–\$50 per meter, suitable for heavy-duty industrial installations. Perforated Steel Cable Trays: \$15–\$40 per meter, offering moderate ventilation and protection for commercial or mixed-use environments. Galvanized Steel Cable Trays: \$25–\$50 per meter, highly resistant to corrosion and ideal for outdoor or harsh conditions.

Prices vary based on tray width, height, thickness, and customization, as well as shipping and import costs if sourced internationally.

Suppliers and Procurement

Brilltech Engineers Pvt. Ltd: Offers customized steel cable trays in Chad with after-sale support and timely delivery. Alibaba and regional distributors: Provide bulk orders and international shipping options, which can help compare costs and quality.

For accurate pricing, it is recommended to contact suppliers directly with specifications such as tray type, dimensions, and quantity to receive a quotation tailored to your project needs.

Key Considerations

Material quality: Galvanized or stainless steel trays are more expensive but offer longer lifespan. Environmental conditions: Outdoor or humid environments require corrosion-resistant trays. Customization: Special sizes or perforation patterns may increase cost.

Bulk orders: Larger quantities often reduce per-meter cost. By evaluating these factors and consulting local suppliers, you can obtain the most cost-effective and suitable steel cable trays for your project in Chad.
