

Jianli Cable Tray Installation Price List

Overview

Cable trays are used in wiring of buildings to support electrical cables and wires that are used to distribute power, controls and communication.

Key Takeaways

Jianli galvanized cable trays are available through online suppliers and distributors, with prices varying by size, material, and quantity, typically ranging from \$10 to \$50 per meter depending on specifications.

Pricing Overview

Jianli cable trays, including galvanized and metal options, are sold through platforms like Mouser and Alibaba, as well as direct manufacturers in China. Prices depend on factors such as:

- Material: Galvanized steel, stainless steel, or aluminum
- Tray type: Ladder, perforated, or solid-bottom
- Dimensions: Width, height, and length
- Quantity: Bulk orders often receive discounts
- Customization: OEM or factory-direct options may affect cost

For example, standard galvanized trays on Alibaba or Made-in-China can range from \$10 to \$50 per meter, with coupler plates and hardware priced separately.

Purchasing Options

Online marketplaces: Alibaba and Mouser allow you to compare suppliers, request quotes, and check unit prices based on order quantity. Direct manufacturers: Buying factory-direct from Chinese suppliers can reduce costs and allow for customization. Local distributors: In India, companies like M.

G. Cable Industries provide cable trays and accessories with delivery options, though prices may vary regionally.

Additional Considerations

Shipping and tariffs: International orders may incur tariffs (e.g., 35% for U. S. shipments) and shipping fees. Minimum order quantities: Some suppliers require minimum orders, often 50 meters or more.

Lead time: Delivery typically ranges from a few days to several weeks depending on stock and customization. For the most accurate pricing, it is recommended to contact suppliers directly with your required specifications, including tray type, dimensions, and quantity, to receive a tailored quote.
