

Laser Diode Integrated Module

Overview

Laser Diode Modules (LD Modules) provide a fully integrated laser solution, combining a laser diode, lensing, thermal management, and electrical interface within a compact, user-friendly housing. We understand that every application has unique. Whether it is diodes for extremely high reliability applications such as LiDAR pumping or high-power pump modules for industrial and security applications, or customized laser diodes for scientific applications, TRUMPF Photonics is your OEM design and manufacturing partner of choice. From our. Select your diode laser from a broad wavelength range with scalable power levels. Choose single emitters, bars, stacks, or fiber-coupled modules. Adjustable collimator for customer specific focal length. Standard: Flexible wires, red and black, 20cm. Please note the positive potential on the housing! Plug type PSU: The 230V.

Article Content

Laser Diodes and Pump Modules

From our vertically integrated laser diode manufacturing location in New Jersey, USA, we supply the pump diodes for all TRUMPF Group lasers including

Diode Laser Components | Coherent

Coherent Diode Laser Components offer a broad wavelength range with scalable power levels. Choose from single emitters, bars, stacks, or fiber-coupled modules.

Diode Lasers

IPG diode laser modules and racks take our industry-leading diode performance to the next level of integration. These lasers combine highly reliable IPG single emitter diodes with delivery fibers for

Laser Diode Modules

Osela specializes in creating custom laser diode modules tailored for OEM integration. Our expertise lies in developing application-specific solutions that

Buy Ortur LU2-4 SF 5W laser module with delivery

Module Ordering and Technical Support You can purchase the Ortur LU2-4 SF 5W laser module with delivery across Ukraine directly on the 3DDevice website. If you need assistance before purchasing,

1.2W Infrared Laser Module For Falcon A1C

The Falcon A1C supports three interchangeable laser modules: 5W Diode Laser Module 10W Diode Laser Module 1.2W Infrared Laser Module Any Falcon A1C machine can use these compatible

48 Laser Diode Manufacturers in 2026

Laser diode modules offer optimal-performance, stability, and precision for applications like machine vision, alignment, and medical equipment. These products find application in industries such as

Creality Falcon A1 Pro 20W Dual-laser Engraver

Falcon A1 Pro dual-laser engraver: 20W blue /2W IR engraves, works with 350+ materials. Autofocus camera, app & touchscreen, 8 safety shields, compact design.

Evolase LDM-PS/NS Series Pulsed Laser Diode Modules

Ultrafast optical sampling in photonic integrated circuit (PIC) testing and bit-error-rate (BER) validation FAQ What is the difference between LDM-PS and LDM-NS modules? LDM-PS modules generate

100mW, 450nm Blue Alignment Laser Diode Module

Violet and Blue Alignment Laser Diodes used in monochromatic and visual-based vision systems and alignment and sensing applications are available at Edmund Optics.

ETSC LCM-6200 Benchtop Semiconductor Laser Diode Controller

Fiber-optic transceiver module burn-in and reliability testing under controlled thermal stress FAQ What laser diode packages are compatible with the LCM-6200? The controller supports standard TO-56,

Lumics to Exhibit High-Performance Single-Mode Diode Laser Modules

Its high-performance single-mode diode laser modules exemplify how vertically integrated engineering, rigorous reliability standards, and customer-focused support can drive

GaN Laser Diode Market in the Netherlands | Report

The Netherlands GaN laser diode market operates within one of Europe's most concentrated electronics and photonics ecosystems. The country's position as a demand center and

Diode laser pump sources for future fusion power plants

Substacks can be vertically integrated into stacks and arranged in parallel to form laser modules, enabling scalable system architectures with total output powers of more than 1 MW per

Top 10 Diode Laser Cutters in 2026 | Laser 101

Laser 101 · Buying guide Top 10 diode laser cutters. A reference to the most popular diode laser machines in 2026 — power, strengths, and which are best for

Laser diode module red

Small, compact and reliable diode laser module with red 650nm @ 5mW. Adjustable collimator for customer specific focal length. Integrated diode driver for constant

Compact Laser Diode Modules

The LDM modules can be mounted to any optical table using one of our C1512 (/M), C1513 (/M), KM200V (/M), or VC3C (/M) V-groove mounts. Besides the

Laser diode modules

We use bare laser diode chips sourced from multiple chip manufacturers, allowing for fast and efficient production of module solutions spanning various
