

Mauritius long-distance optical cable manufacturer

Overview

Manufacture & Supply of Fiber Solutions We manufacture fiber cables, connectors, patch cords, closures, and source other critical accessories used in FTTH.

Key Takeaways

Electrum and Aksh OptiFibre Mauritius Limited are leading manufacturers of optical fiber cables in Mauritius, offering solutions for long-distance telecom and data networks.

Electrum

Electrum is a prominent Mauritius-based manufacturer and supplier of fiber optic solutions, specializing in long-distance and high-speed data transmission cables. They provide a full range of fiber optic products, including cables, connectors, patch cords, and network accessories, designed for telecom operators, data centers, and enterprise networks (Electrum). Capabilities: Electrum manufactures fiber cables suitable for long-distance transmission, supporting 5G, IoT, and next-generation network expansions.

Experience: They have commissioned over 80,000 km of fiber networks and completed more than 170,000 last-mile connections, ensuring reliable connectivity for telecom operators and large buildings. Regional Reach: Their products are deployed locally and exported to Sub-Saharan Africa, Indian Ocean Islands, and South America. Services: Electrum offers end-to-end solutions, including design, supply, testing, and commissioning of structured data networks, along with SCADA and PPC integration for industrial projects.

Aksh Opti

Fibre Mauritius Limited (ATML) Aksh OptiFibre Mauritius Limited, a subsidiary of Aksh OptiFibre Limited, manufactures optical fiber cables in Mauritius and markets them both domestically and internationally (Aksh OptiFibre). Capabilities: ATML produces high-quality optical fiber cables and provides engineering consultancy and technical support for digital and telecommunications projects. Global Reach: The company leverages Mauritius as a strategic location for export, serving international markets efficiently.

Expertise: They focus on cutting-edge technology and long-distance fiber solutions, catering to telecom operators and data network companies.

Photonics Ltd

Photonics Ltd specializes in last-mile FTTH solutions and copper cable assemblies, with a focus on passive fiber optic products for domestic and regional markets, including the Indian Ocean Islands and the Eastern Seaboard of Africa (Photonics). Capabilities: They manufacture pre-terminated aerial drop cables and other FTTH components suitable for telecom and security applications. Experience: Photonics serves major clients such as Mauritius Telecom, Huawei, and Emtel, providing high-quality, customized fiber solutions.

Technical Support: The company offers design, production, and installation guidance for fiber optic networks.

Summary

For long-distance optical cable manufacturing in Mauritius, Electrum and Aksh OptiFibre Mauritius Limited are the primary providers with extensive experience in high-speed, long-distance fiber networks and international export. Photonics Ltd complements the market with specialized last-mile FTTH solutions and regional expertise. These companies collectively support telecom operators, data centers, and infrastructure projects with both manufacturing and end-to-end network solutions.
