

Middle East power cable tray manufacturers

Overview

Top 5 Cable Tray Manufacturers in the Middle East This article covers key manufacturers, regional standards, and specific features to consider when selectin.

Key Takeaways

Leading cable tray manufacturers in the Middle East include Al-Babtain Power & Telecommunication, Emerald Steel Industries, Future Pipe Industries, West Port Cable Tray, Bonn Metal Construction Industries, PSI, and Unigroup. Key Manufacturers and Their Specializations Al-Babtain Power & Telecommunication (UAE) Founded in 1960, Al-Babtain specializes in heavy-duty cable trays, ladders, and custom cable management systems for energy, oil & gas, power generation, and telecommunication sectors. Their products are designed to withstand the Middle East's harsh climate, including high temperatures and coastal corrosion-prone areas.

Emerald Steel Industries (UAE) Emerald Steel produces hot-dip galvanized and pre-galvanized steel trays suitable for indoor and outdoor industrial and commercial applications. They serve oil & gas, industrial facilities, and power plants, and are ISO 9001 certified for quality management. Future Pipe Industries A global manufacturer with a strong presence in the Middle East, Future Pipe Industries provides integrated pipe systems and cable management solutions for industrial, infrastructure, and energy sectors.

West Port Cable Tray (UAE) West Port offers a wide range of cable trays, ladders, Unistrut channels, trunking, and wire mesh trays for light, medium, and heavy-duty applications. Their systems are modular, adaptable, and engineered for ventilation, protection, and ease of installation in commercial and industrial projects.

Bonn Metal Construction Industries LL

C (BMCI) (UAE) BMCI is a flagship supplier in the MENA region, providing cable trays, ladders, trunking, and strut channels. They focus on tailored solutions for power, signal, control, and communication cables, ensuring timely delivery and high-quality standards for large-scale industrial and commercial projects.

PS

I (Power Solution International) (UAE) PSI manufactures cable trays according to BS EN 61537 and NEMA VE-1 standards, offering carbon steel, aluminum, and stainless steel trays with hot-dip galvanization for corrosion protection. They provide a full range of factory-made fittings for vertical and horizontal directional changes.

Unigroup (UAE) Unigroup produces perforated, ladder, wire mesh, and GRP cable trays engineered for corrosion and fire resistance, lightweight installation, and compliance with international load and safety standards.

Their solutions are suitable for commercial, industrial, and utility applications. Considerations for Selecting a Manufacturer Material and Coating: Hot-dip galvanized steel, stainless steel, aluminum, or GRP depending on environmental conditions. Load Capacity: Light, medium, or heavy-duty trays based on cable weight and span requirements.

Compliance: ISO certifications, BS EN, NEMA, or other regional standards.

Customization: Ability to provide bespoke designs for complex installations. Support and Delivery: Timely project support, installation guidance, and after-sales service.

These manufacturers collectively cover a wide range of industrial, commercial, and utility applications, making them suitable for projects across the Middle East.
