

Overall Price of Cable Tray Ladders

Overview

Comprehensive Cable Ladder Price List: Complete Guide to Explore our detailed cable ladder price list featuring current market rates, technical specificati.

Key Takeaways

Cable tray ladders typically range from \$50 to \$500 per straight section, depending on material, size, and load capacity.

Overview

Cable tray ladders are used to support and route electrical cables in industrial, commercial, and large facility installations. They are available in aluminum, steel, or stainless steel, with straight sections, horizontal and vertical fittings, and accessories to form complete cable pathways. Prices vary based on length, width, height, material, and load rating.

Typical Price Ranges

Small aluminum ladder trays (light-duty, 2-4 ft sections): \$50-\$100 per section
Medium steel ladder trays (6-10 ft sections, moderate load): \$100-\$250 per section
Heavy-duty or large stainless steel trays (10-12 ft sections, high load): \$300-\$500+ per section
Fittings and accessories (elbows, tees, splices, supports): \$20-\$150 each depending on size and material
Factors Affecting Price
Material: Aluminum is lightweight and corrosion-resistant, generally less expensive than stainless steel. Steel is stronger but heavier and may require protective coatings. Dimensions: Wider and taller trays that carry more cables cost more.

Load Capacity: Trays rated for heavier cable loads are priced higher. **Supplier and Brand:** Prices vary between suppliers like Grainger, McMaster-Carr, Legrand, and Platt Electric. **Accessories:** Elbows, tees, covers, and support brackets add to the total cost of a cable tray system.

Purchasing Tips

Compare material and load ratings to ensure the tray meets your installation requirements. Consider pre-fabricated kits for easier installation and cost efficiency. Check for bulk discounts if purchasing multiple sections or complete systems.

By understanding these factors, you can estimate the total cost of a cable tray ladder system for your project and select the most suitable supplier and material.
