

Price of 3m Fiber Optic Cable Junction Box

Overview

3m fiber optic cable box Find High Quality Manufacturer Suppliers and Products at the Best Price on Alibaba.com 3M Fiber Optic Joint Boxes Service provider.

Key Takeaways

The price of a 3-meter fiber optic cable junction box typically ranges from \$30 to \$80 depending on capacity, material, and features.

Overview

A 3-meter fiber optic junction box is designed for splicing, protecting, and organizing fiber optic cables in FTTH networks or other optical distribution systems. These boxes are usually made of high-impact, waterproof plastic (PP+GF or ABS) and feature IP68 waterproof ratings, rubber seals, and multiple splice trays for easy fiber management. They are suitable for pole-mount, wall-mount, or underground installations.

Pricing Examples
YINGDA 3m Fiber Cable Joint Box: Supports up to 96 cores with 24 ports, includes rotatable splice trays, and is made of PP+GF material. Prices for similar models are typically around \$30-\$50 per unit depending on supplier and quantity.
Amazon Fiber Junction Boxes: Smaller wall-mount boxes for single-mode or multimode fibers with LC couplers are available, generally priced between \$40-\$80 depending on capacity and included adapters.

Wholesale Options: Platforms like Made-in-China offer bulk pricing for fiber optic junction boxes, which can reduce the per-unit cost significantly for orders of 10 or more units.

Factors Affecting Price

Capacity: Boxes supporting more fiber cores (48-1152 cores) cost more due to additional trays and ports. Material and Durability: IP68-rated, impact-resistant enclosures are more expensive than basic ABS boxes. Accessories: Pre-installed splice trays, PLC splitters, and cable glands can increase the price.

Supplier and Quantity: Bulk orders or direct manufacturer purchases often reduce the per-unit cost.

Recommendation

For a 3-meter fiber optic junction box suitable for FTTH or small network installations, expect to pay around \$30-\$80 per unit, with higher-end models offering more cores, better sealing, and additional splice trays. For large-scale deployments, consider wholesale suppliers to reduce costs.
