

Price of Fiber Optic Junction Boxes

Overview

Fiber Optic Wall Mount Box with LC Couplers for Single Mode & Multimode Fiber Optic Cable. | Fiber Box Enclosure for MPOE's, Network Rooms, and IDF Rooms.

Key Takeaways

Fiber optic junction boxes are available from multiple suppliers, with prices ranging from approximately \$10 to \$100+ per unit depending on type, port capacity, and features.

Pricing Overview

Wholesale platforms like Alibaba and Made-in-China offer fiber optic junction boxes at bulk prices starting around \$10–\$30 per unit for standard indoor/outdoor models, with higher-end or larger port boxes costing more. Retail options on Amazon and other e-commerce sites typically range from \$20 to \$100+, depending on the number of ports, type of connectors (LC, SC, MPO), and whether the box includes splitters or splicing trays.

Specialized FTT

H distribution boxes with multiple ports, PLC splitters, and IP65 waterproof ratings can cost \$40–\$80 per unit, offering features like dual-layer design, wall-mount installation, and secure screw locks.

Supplier Options

Alibaba and Made-in-China provide a wide range of suppliers for bulk orders, suitable for telecom operators or large-scale network deployments.

Direct

Industry lists products from leading brands such as HUBER+SUHNER, YOCCF, and LAPP, offering professional-grade junction boxes for industrial and enterprise networks. TopFiberBox specializes in FTTH and FTTX solutions, providing boxes with integrated splicing, termination, and splitting capabilities for residential and commercial applications.

Key Features to Consider

Port capacity: Commonly 2, 6, 12, or more ports depending on network requirements. Material and durability: High-strength engineering plastic or metal enclosures with IP65 waterproof rating for outdoor use. Functionality: Supports fiber splicing, termination, signal splitting, and cable management.

Installation: Wall-mounted or pole-mounted options with secure locking mechanisms. Warranty: Many suppliers offer 1–2 years warranty on the enclosure and fiber components.

Recommendations

For bulk procurement, consider Alibaba or Made-in-China for competitive pricing and supplier negotiation. For smaller quantities or rapid delivery, Amazon or specialized suppliers like TopFiberBox provide ready-to-ship options. Ensure the selected junction box matches your network type (FTTH, FTTX, enterprise) and fiber core requirements to avoid compatibility issues.

By comparing suppliers and specifications, you can select a cost-effective solution that meets both performance and durability requirements for your fiber optic network deployment.
