

Price of Hongqiao Wiring Distribution Box

Overview

The Distribution Box Price is a premium choice in the Power Distribution Cabinet & Box category. Power distribution cabinet & box price varies by specs, OEM requirements, and factory volume.

Key Takeaways

The price of a Hongqiao Wiring Distribution Box varies depending on specifications, customization, and order volume, typically ranging from \$20 to \$200 per unit for standard models.

Pricing Overview

The cost of a wiring distribution box, including Hongqiao models, depends on several factors: size, material, IP rating, internal components, and customization options such as OEM branding, busbar fitment, and cable entry modifications. Standard factory models for small-scale use or residential applications generally start around \$20-\$50 per unit, while larger industrial or high-specification boxes can reach \$150-\$200 or more per unit.

Factors Affecting Price

Order Quantity: Wholesale or bulk orders often reduce the per-unit cost significantly. **Customization:** Adding company logos, special internal layouts, or enhanced safety features increases the price. **Material and Housing Quality:** Boxes with waterproof, corrosion-resistant, or gas-tight housings are priced higher due to durability and safety standards.

Internal Components: Inclusion of fuses, terminal blocks, and compliance with national electrical safety standards can affect cost.

Procurement Tips

Contact suppliers directly for a current price list and request quotes for your specific requirements. Consider factory direct purchase to reduce costs and ensure quality. Many Chinese manufacturers provide OEM services and can ship quickly depending on order size.

Verify that the box meets local electrical safety standards to ensure compliance and reliability. In summary, while exact pricing for a Hongqiao Wiring Distribution Box depends on specifications and order details, expect a range of \$20-\$200 per unit, with bulk orders and standard models on the lower end and customized or industrial-grade boxes on the higher end.
