# Price of I-beam cable tray supports

## Overview

Our aluminum, I-beam ladder cable trays feature 3-inch tangents and are using connectable with our fittings and accessories.

## Key Takeaways

I-beam cable tray supports typically range from $20 to $150 per clamp or support kit, depending on size, material, and load capacity.Overview

I-beam cable tray supports are used to securely mount cable trays to structural beams, providing rigid support for industrial and commercial installations. They include C-clamps, hold-down clamps, expansion guides, and full hardware kits compatible with I-beam ladder cable trays . Materials commonly used are aluminum (6063 T6) or zinc-plated steel, offering corrosion resistance and durability .

Pricing Factors
• Type of support: Simple C-clamps or hold-down clamps are generally less expensive, while full hardware kits for heavy-duty installations cost more .

• Load capacity: Supports rated for higher loads (up to 500 lbs) are priced higher due to stronger materials and design .

• Material: Aluminum supports are lightweight and corrosion-resistant, often slightly more expensive than standard steel clamps .

• Beam size compatibility: Supports designed for wide flange beams or thicker I-beams may cost more due to larger hardware and additional components .
Typical Price Ranges
• Individual clamps or mounting clips: $20–$50 each, depending on size and load rating .

© 2026 ALFA PRO COMMUNICATION SYSTEMS (Pty) Ltd - All rights reserved

• Heavy-duty hold-down clamps: $50–$100 each, suitable for beams up to 12" wide and 3/4" thick .

• Full I-beam support hardware kits: $100–$150 per kit, including brackets, bolts, and corrosion-resistant components for ladder cable trays .
Purchasing Options
• Direct from manufacturers: Companies like MP Husky, Quest Manufacturing, and Atkore provide custom quotes and dealer accounts for bulk orders .

• Industrial suppliers: McMaster-Carr offers a variety of I-beam support clamps and mounts with same-day or next-day delivery .

• Customization: For specific beam sizes, load requirements, or corrosion-resistant finishes, contacting the manufacturer for a quote is recommended . By considering the type of support, material, and load requirements, you can select the appropriate I-beam cable tray support while estimating costs for your project.
