

Price of Indoor Distribution Box Protection Device

Overview

Indoor Breaker Boxes Get free shipping on qualified Indoor Breaker Boxes products or Buy Online Pick Up in Store today in the MOLLOM 2 Way Circuit Breaker.

Key Takeaways

Indoor distribution box protection devices typically range from \$20 to \$150 depending on size, capacity, and features. Typical Pricing

- Basic residential indoor distribution boxes with 2-8 ways for circuit breakers generally cost \$20-\$50. For example, the MOLLOM 2-way MCB distribution box is available on Amazon and falls within this range, offering IP65 protection and durable ABS plastic construction suitable for indoor use .

- Larger or multi-circuit boxes for commercial or industrial applications can range from \$80-\$150 or more, depending on the number of circuits, amperage rating, and additional features like transparent covers, surge protection, or smart monitoring .

- Surge protection devices (SPDs) that can be integrated into these boxes are sold separately, with prices typically ranging from \$10-\$50 per device, depending on voltage rating and brand .

Factors Affecting Price

- Number of Circuits: More ways or slots for breakers increase the cost.

- Material and Durability: ABS or PC plastic with high corrosion resistance and fire-retardant properties is more expensive.

- **Protection Features:** IP rating (e.g., IP65 for dust and water resistance), surge protection, and arc fault detection add to the price.
- **Brand and Certification:** Certified products from reputable manufacturers may cost more but ensure compliance with safety standards.
- **Installation Considerations:** While the device itself may be affordable, professional installation can add to the total cost.

Where to Buy

- **Online Retailers:** Amazon, DigiKey, and specialized electrical suppliers offer a wide range of indoor distribution boxes with detailed specifications and pricing .
- **Home Improvement Stores:** Home Depot and similar stores provide indoor breaker boxes with options for in-store pickup or delivery .
- **Specialized Electrical Suppliers:** European or industrial suppliers like Intratec offer a variety of enclosures for residential and commercial projects . In summary, for a standard indoor distribution box protection device suitable for home or small commercial use, expect to pay \$20-\$50, while larger or feature-rich units can cost \$80-\$150 or more, with additional costs for surge protection and installation.
