Price of Vertical Support for Mesh Cable Tray

Overview

Kable Kontrol''s wire mesh cable tray suspends cables and ensure that your important wires and cables are safely organized and out of your way.

Key Takeaways

Vertical supports for mesh cable trays typically range from $15 to $60 per unit, depending on size, material, and brand.

Typical Pricing Examples

Kable Kontrol Vertical Tray Slotted Holder: Available on Amazon, these supports are designed for wall mounting and compatible with 4–12 inch wide mesh trays. Prices generally start around $20–$35 per bracket, depending on size and finish. Cablofil Vertical Support Bracket (Pregalv): Designed for 6-inch and wider trays, these fold-over tab brackets provide secure vertical support without additional hardware.

Pricing for these specialized brackets is typically in the $30–$60 range per unit, reflecting their high-strength, pre-galvanized steel construction. McMaster-Carr and Graybar Options: These suppliers offer a variety of mounting brackets for wire mesh trays, with prices varying by material (steel, aluminum, or powder-coated finishes) and load capacity. Lightweight or standard brackets can cost $15–$40 each, while heavy-duty or fire-resistant models may exceed $50 per unit.

Factors Affecting Price

Tray Width Compatibility: Wider trays (12 inches or more) often require two supports, increasing total cost. Material and Finish: Zinc-plated, pre-galvanized, or powder-coated steel brackets are more expensive but offer corrosion resistance and durability. Load Capacity: Brackets engineered for high-load environments or industrial applications cost more due to reinforced design and compliance with standards like UL 1953.

Customization: Modular or adjustable supports that fit unique installation geometries may carry a premium.

Market Context

The vertical cable tray support market is growing steadily, with innovations in fire-resistant coatings, IoT integration, and eco-friendly materials. While prices fluctuate due to raw material costs, most commercial and industrial installations can expect to budget $15–$60 per vertical support, with higher-end options for specialized applications. For accurate pricing, it is recommended to check supplier websites like Amazon, McMaster-Carr, Graybar, or Legrand and consider shipping, quantity discounts, and compatibility with your specific mesh tray system.
