

Price of double-layer cable trays in Zhuji

Overview

Price List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online.

Key Takeaways

Double-layer cable trays in Zhuji typically cost between \$10 and \$50 per piece, depending on material, size, and manufacturer.

In Zhuji, part of Zhejiang province, cable tray suppliers offer a variety of options including ladder, perforated, and wire mesh trays. Prices vary based on material and specifications:

- Stainless steel ladder trays: \$0.9–\$24 per piece for standard sizes, with higher-end options for corrosion-resistant or heavy-duty designs (e.g., 316L stainless steel) .
- Galvanized steel trays: Commonly used for industrial applications, prices for standard 2.4-meter lengths range from \$15–\$40 per tray, depending on width and load capacity .
- Aluminum or aluminum-magnesium alloy trays: Lightweight and corrosion-resistant, typically priced 10–20% higher than standard galvanized trays . Double-layer trays, which allow for stacked cable routing, may cost slightly more than single-layer trays due to additional material and structural support. For a standard double-layer ladder tray, expect \$20–\$50 per 2.4-meter section, with bulk orders often receiving discounts .

Factors Affecting Cost

- Material: Stainless steel and aluminum alloys are more expensive than galvanized steel.

- Dimensions: Wider or deeper trays with higher load capacity increase cost.
- Customization: OEM or factory-direct orders for specific lengths, perforations, or coatings may raise the price.
- Supplier Location: Zhuji benefits from Zhejiang's industrial clusters, which can reduce shipping and procurement costs compared to inland regions .
- Volume: Large orders often qualify for wholesale discounts, reducing per-piece cost

Recommendations

- Contact local suppliers in Zhuji for quotes based on your exact specifications.
- Consider factory-direct or OEM options to optimize cost and ensure compliance with load and environmental requirements.
- Compare material types to balance durability and budget, especially for outdoor or industrial installations. By considering these factors, you can secure a cost-effective double-layer cable tray solution suitable for your project in Zhuji.
