

Price of one cable tray

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

The price of a single cable tray ranges from approximately \$0.80 to \$76, depending on material, type, and purchase volume.

- B2C Retail (Amazon/Home Use): Cable trays designed for home offices or small-scale use typically cost \$15 to \$34 per unit, with some wholesale options as low as \$0.92. These are usually under-desk wire organizers or small perforated trays suitable for light cable management .

- B2B Bulk (Alibaba/Industrial Use): Industrial or commercial cable trays for construction projects, data centers, or manufacturing facilities range from \$0.80 to over \$76 per unit, depending on size, material, and design. Bulk purchases often reduce per-unit cost significantly .

Material-Based Pricing

- Steel Cable Trays: Common and durable, priced around \$5 to \$25 per meter.

Suitable for general-purpose installations in residential, commercial, and industrial settings .

- Aluminum Cable Trays: Lightweight and corrosion-resistant, typically \$6 to \$30 per meter, ideal for outdoor or humid environments .

- FRP (Fiberglass Reinforced Plastic) Trays: Cost \$10 to \$50 per meter, offering high durability in aggressive environments .

- **Stainless Steel Trays:** Most durable and corrosion-resistant, generally at the higher end of the price spectrum, suitable for high-demand or chemical-exposed areas .

Type-Based Considerations

- **Ladder Cable Trays:** Provide strong support for heavy power cables.
- **Wire Mesh/Basket Trays:** Lightweight, flexible, and easy to install.
- **Single Rail Trays:** Compact, suitable for smaller installations.
- **PVC Trays:** Fire-resistant and weatherproof, often used in harsh conditions .

Additional Factors

The final price can also be influenced by tray length, width, perforation, accessories (connectors, brackets), and installation complexity. For large-scale projects, per-meter pricing is often more relevant than per-unit pricing, and bulk orders can significantly reduce costs . In summary, a single cable tray can cost under \$1 for small wholesale units or up to \$76 or more for specialized industrial trays, with material and type being the primary determinants of price .
