

Price of outdoor 12-core multimode optical fiber

Overview

FLYPROFiberHigh-Speed Performance--- The OM3 LC to LC Industrial TPU outdoor fiber optic cable supports up to 100 Gbps bandwidth, 16FT/5M OM3 12 Core Multi.

Key Takeaways

The price of a 12-core outdoor multimode optical fiber cable typically ranges from \$0.50 to \$2.50 per foot, depending on type, construction, and vendor.Pricing Overview

- OM4 Multimode Loose Tube Outdoor Cable: High-quality OM4 12-core cables with LC/UPC connectors are commonly used for LAN and data center applications. Prices generally start around \$1.50–\$2.50 per foot for lengths over 100 meters, with spools provided for longer runs .
- Standard 62.5/125 Multimode Outdoor Cable: Bulk 12-core multimode fiber (OM1) with PVC jacket and water-blocking features is available in 1000-foot spools, typically priced around \$0.50–\$1.00 per foot depending on vendor and specifications .
- GYTY53 Armored Double-Jacket Outdoor Cable: This 12-core armored, gel-filled, loose tube cable designed for direct burial and long-distance LAN or telecom applications is more robust and may cost \$1.50–\$2.50 per foot, reflecting its steel tape armor, dual HDPE jackets, and compliance with ITU-T G.652D/G.657A1 standards .

Factors Affecting Price

- Fiber Type: OM4 (50/125 μm) is more expensive than OM1 (62.5/125 μm) due to higher bandwidth and lower attenuation.

- **Cable Construction:** Armored, gel-filled, or double-sheathed cables for outdoor or underground use cost more than standard PVC-jacketed cables.
 - **Length and Packaging:** Longer spools or custom lengths may reduce per-foot cost but increase total purchase price.
 - **Vendor and Region:** Prices vary by supplier, shipping, and local market conditions. Vendors like Fiber24, CableWholesale, Stonewall Cable, and ME Fiber Optic offer different pricing tiers .
- Recommendation

For direct burial or outdoor installations, consider armored, gel-filled loose tube cables like the GYTY53 12-core multimode for durability and compliance with telecom standards. For short-range LAN or indoor/outdoor runs, OM4 loose tube cables with LC/UPC connectors provide high performance at a moderate cost. Always confirm pricing with the supplier, as bulk orders and shipping can significantly affect the final cost.
