

Price of wiring for 10 Gigabit Ethernet optical modules

Overview

When talking about cabling solutions for 10GbE networks, two broad categories of copper and optical fiber will be considered as a result.

Key Takeaways

10G SFP+ optical modules typically range from \$12 to \$150 per module, with fiber cabling and copper alternatives adding \$0.50–\$5 per meter depending on type and length. Optical Modules Short-Range (SR) Multimode SFP+ Modules: Designed for OM3 fiber up to 300 meters, these modules are commonly used in data centers.

Prices generally start around \$50–\$100 per module depending on brand and vendor (Cables on Demand).

Long-

Range (LR) Single-Mode SFP+ Modules: Support distances up to 10 km over OS1 fiber. Multi-vendor compatible modules like the EDGEOPTIC 10G-SFP-10 can cost as low as €12 (~\$13 USD) for basic models, with higher-end or brand-specific modules reaching \$100–\$150.

Fiber Cabling

Duplex L

C Fiber: For 10GBASE-SR or LR, OM3 multimode or OS1 single-mode fiber is used. Prices vary by length and quality: \$0.50-\$2 per meter for standard fiber, with pre-terminated cables costing more.

Active Optical Cables (AOC): These integrate the transceivers and fiber in a fixed-length assembly, offering a cost-effective solution for short distances (up to 100 meters). Prices typically range from \$50-\$200 depending on length and vendor.

Copper Alternatives 10GBASE-T SFP+ Modules: These allow 10GbE over Cat6a/7 cables up to 30 meters.

Modules like the H! Fiber 10G-SFP-T cost around \$50-\$80 per module, with Cat6a/7 cabling adding \$0.50-\$2 per meter.

Direct Attach Copper (DAC) Cables: Short-range (up to 10 meters) copper cables with integrated SFP+ connectors are a low-cost alternative, typically \$20-\$100 depending on length.

Summary Component	Price Range
10G SFP+ SR Module	\$50-\$100
10G SFP+ LR Module	\$12-\$150
Duplex Fiber Cable	\$0.50-\$5 per meter
Active Optical Cable (AOC)	\$50-\$200
10GBASE-T SFP+ Module	\$50-\$80
DAC Cable	\$20-\$100

When planning a 10GbE deployment, consider distance, cable type, and vendor compatibility.

For short distances within racks, DAC or AOC cables are cost-effective. For longer distances, single-mode fiber with LR SFP+ modules is preferred.

10G SFP+ Optical Transceivers | Transceiver Module

FS 10GbE SFP+ module solutions provide a wide variety of 10 Gigabit Ethernet connectivity options for data centers, enterprise wiring closets, Internet Service

SFP+ Optical Transceiver Modules (10G-SR/LR)

Genuine Amphenol 10GBASE-SR SFP+ Optical Transceiver Modules provide a high-density, high-performance interface for 10-Gigabit Ethernet and Fibre

10-Gigabit (10G) Ethernet Network Cables & Modules

Cables on Demand stocks hundreds of popular 10 Gigabit Ethernet products, including CAT6/CAT6a Network Patch Cables, Direct Attach Copper (DAC)

10G Ethernet Cabling Solutions

When talking about cabling solutions for 10GbE networks, two broad categories of copper and optical fiber will be considered as a result. The following content introduces the two major 10GbE

Cisco 10GBASE SFP+ Modules Data Sheet

Product overview The Cisco® 10GBASE SFP+ modules (Figure 1) give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport

QSFP28 Optical Transceiver Modules for Sale (100G) | Cables on

Our QSFP28-SR Multi-Mode-Fiber (MMF) Optical Modules integrate a 12-lane MTP/MPO fiber receptacle (port) for 100G Ethernet links using industry-standard MTP/MPO fiber patch cords up to

Secure & Reliable Fiber Optic Connectivity Solutions

Versiton specializes in designing and manufacturing copper-to-fiber connectivity solutions tailored for data, voice, and video applications across diverse industries. Our products are backed by a lifetime

Fiber Savvy SFP+ Optical Transceiver Modules, SFP-10G-SR,

Comparable to Cisco's SFP-10G-SR and compatible with Cisco switches. Description SFP+ Optical Transceiver Modules, SFP-10G-SR, 10GBASE-SR, 850nm MMF, up to 300 Meters, LC, Cisco

XGSPON ONU SFP+ 1270nm-TX/1577nm-RX 9.953G-TX/9.953G-RX

Overview The XGS-SFP-ONT-MAC-I is a high-performance optical transceiver module designed for 10-Gigabit-capable passive optical network (XGS-PON) deployments. It functions as an integrated

Hilink Optics QSFP QSFPDD OSFP 10G SFP transceiver, Optical

If you have any questions about Hilink Optics CWDM DWDM QSFP QSFPDD OSFP 10G SFP transceivers, we will give the professional solutions to you.
