

Price range of multi-hole trough steel cable trays

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

Multi-hole steel trough cable trays typically range from \$15 to \$80 per meter, depending on size, material, and customization options.

The cost of multi-hole steel trough cable trays varies based on several factors:

- **Material and Coating:** Galvanized steel, stainless steel, or powder-coated options affect durability and price. Galvanized trays are common for corrosion resistance and moderate cost, while stainless steel is more expensive .
- **Dimensions:** Widths (15mm–100mm), thickness (0.8mm–3mm), and lengths (3m–6m or custom) influence pricing .
- **Perforation Pattern:** Oval, slot, or round holes for ventilation and heat dissipation can slightly affect cost .
- **Customization:** OEM or factory-direct orders, special side wall types (R, C, P types), and color options may increase the price .

- Quantity: Bulk orders often reduce the per-meter cost, while small orders may be at the higher end of the range .

Supplier Examples

- Alibaba Suppliers: Offer multi-hole galvanized steel trough trays with customizable dimensions and hole patterns, typically priced between \$15-\$50 per meter for standard sizes, with higher prices for thicker or specialty trays .
- Made-in-China: Factory-direct and OEM options provide competitive pricing, often \$20-\$80 per meter, depending on specifications and order volume .
- U.S. Distributors: Companies like McMaster-Carr and Legrand provide pre-assembled steel trough trays, with prices generally higher due to shipping and domestic sourcing, typically \$30-\$70 per meter for standard steel trays .

Additional Considerations

- Load Capacity: Ensure the tray supports the required cable weight; heavier-duty trays may cost more.
- Environmental Conditions: Outdoor, humid, or corrosive environments may require higher-grade materials, increasing cost.
- Installation Accessories: Connectors, clamps, and hanging hardware are usually sold separately and add to the total system cost . In summary, expect to pay roughly \$15-\$80 per meter for multi-hole steel trough cable trays, with the final price influenced by material, size, perforation, customization, and supplier choice. For precise pricing, requesting a quote from suppliers with your specific dimensions and requirements is recommended .
