

Southern European Waterproof Distribution Box Models and Specifications

Overview

For detailed product information, including dimensions and technical specifications, you can review the V9 and V9B models.

Key Takeaways

Waterproof distribution boxes in Southern Europe are available in IP65–IP68 ratings, with ABS or polycarbonate housings, modular configurations from 4 to 54 ways, and compliance with IEC 60529 and EN standards.

IDE Electric offers IP65 surface enclosures in ABS and polycarbonate, with capacities ranging from 4 to 54 modules. Features include halogen-free materials, UV-protected transparent windows, TH35x7.5 DIN rails, and VDE-certified N+E bars, suitable for outdoor installations . SinoBreaker provides AT and HT series waterproof distribution boxes. The AT Series is compact for tight spaces, while the HT Series offers more internal room for additional terminals or small DIN rail setups. Both series are rated IP65–IP68, UV-stabilized, and suitable for outdoor and industrial environments . SELHOT manufactures 14 enclosure families across four application groups: general-purpose outdoor, solar PV, MCB circuit-breaker, and fully custom tooling. Standard modular configurations range from 4-way to 36-way, with IP65–IP66 ratings. SELHOT supports RAL color matching, CAD-ready dimensions, and OEM/ODM customization for solar, lighting, and high-exposure environments . ETEK Electric EKDB10 series features IP65 PC plastic enclosures, available in 4–39 ways, with single, double, or triple layers. These boxes meet IEC 60529, IEC 62262, and IEC 60695-2-10 standards, suitable for industrial, commercial, and photovoltaic applications . QuiSure offers multiple series:

- VDB-SA/B/C/D/SE/T/SM/SD series with IP65–IP66 protection.
- Materials: polycarbonate (PC) with snap-on or padlock designs.
- Modular configurations: 4–48 ways, including options for EV charging points and MCCB or disconnecter integration.
- Compliance: IEC 60529 and EN60309, with dust, water, and UV resistance for outdoor reliability .

Common Specifications

- Ingress Protection: IP65–IP68 (dust-tight, water jets, or temporary immersion)
- Materials: ABS or polycarbonate, halogen-free, UV-stabilized
- Modular Capacity: 4–54 ways, single or multi-layer
- DIN Rail Compatibility: TH35x7.5 rails for modular components
- Standards Compliance: IEC 60529, EN 60670-1, EN60309, UL 94 flammability
- Environmental Suitability: Outdoor, industrial, solar PV, EV charging, and high-exposure areas
- Customization: Color matching, pre-assembled solutions, OEM/ODM options, and tailored hole drilling

Applications

These waterproof distribution boxes are ideal for:

- Outdoor lighting and irrigation systems
- Solar PV installations

- Industrial and commercial electrical distribution
- EV charging stations
- Areas exposed to dust, rain, UV, or temporary water immersion By selecting the appropriate series and material, users can ensure long-term reliability, safety, and compliance with European electrical standards while accommodating specific installation requirements.
