

Specifications for outdoor PZ30 distribution box

Overview

The product is divided into open wall-mounted, concealed embedded, single-row, double-row and three-row, with specifications of 4-60 circuits.

Key Takeaways

The PZ30 distribution box is a versatile, modular electrical enclosure suitable for outdoor and industrial applications, supporting up to 125A with IP30 or higher protection.

Electrical Specifications

Rated Voltage: Up to 500V AC for single-phase and three-phase circuits. Frequency: 50Hz. Rated Current: Typically 100–125A depending on configuration.

Protection Features: Overload, short-circuit, and leakage protection are integrated, ensuring safe operation in residential, commercial, and industrial settings.

Compliance Standards: IEC 60439-3, IEC60670, and GB7251. 3 for low-voltage switchgear and distribution boards.

Mechanical and Material Features

Construction Material: High-strength stainless steel or flame-retardant thermoplastic, providing excellent corrosion resistance and durability. Sealing Components: Silicone rubber gaskets for resistance to oil, acids, alkalis, high temperatures, and aging.

Enclosure Thickness: Steel plate typically 1.

0mm thick with high-voltage electrostatic spray coating. Cover: Transparent plastic cover for easy visual inspection of circuits. Modularity: Supports 2-30 ways of circuit breakers, allowing flexible expansion and easy modification.

Environmental and Installation Features IP Rating: IP30 or higher, providing protection against solid objects larger than 2.5mm; suitable for non-hazardous outdoor environments. Cable Entry: Pre-punched knockouts on top and bottom for convenient wiring.

Mounting Options: Surface-mounting or recessed installation, adaptable to various settings including industrial, residential, and commercial. Heat Dissipation: Designed for proper airflow to prevent overheating during prolonged operation.

Applications

Outdoor and Harsh Environments: Industrial automation, chemical plants, oil and gas facilities, and outdoor lighting systems. Residential and Commercial: Buildings, shopping malls, and factories for power and lighting distribution. The PZ30 distribution box combines robust construction, modularity, and safety features, making it suitable for both indoor and outdoor installations where reliable electrical distribution and protection are required.
