Sri Lanka Cable Tray Models

Overview

We provide a variety of cable trays and accessories, including electro galvanized, hot dip galvanized, steel, aluzinc, and aluminum alloy options.

Key Takeaways

Sri Lanka offers a wide range of cable trays including perforated, ladder, and solid types, made from materials like steel, aluminum, hot-dip galvanized, and powder-coated finishes for industrial and commercial applications. Common Cable Tray Types1.

Ladder Cable Trays

Designed with side rails and rungs, ideal for heavy-duty cables and long spans. Provides excellent ventilation and easy access for installation and maintenance. Suitable for industrial and outdoor environments due to high mechanical strength and durability.

2.

Perforated Cable Trays

Feature slots or holes along the tray for ventilation and heat dissipation. Lightweight and easy to handle, often used in industrial plants and commercial buildings. Produced using CNC laser cutting and bending technology for precision.

3.

Solid Bottom Cable Trays

Provide full support for cables, protecting them from dust, debris, and mechanical damage. Commonly used in indoor environments where cable protection is a priority.

Materials and Finishes

Steel: Strong and durable, often hot-dip galvanized for corrosion resistance. Aluminum and Aluminum Alloy: Lightweight, corrosion-resistant, suitable for indoor and outdoor use.

Electro-

Galvanized: Provides moderate corrosion protection for less harsh environments.

Powder-

Coated: Offers enhanced aesthetics and additional corrosion resistance, ideal for indoor installations. Local Brands and SuppliersCEYLEKTRA: Sri Lankan brand offering hot-dip galvanized and powder-coated trays, compliant with EN 61537 and EN ISO 1461 standards.

GERSA

N: Provides robust galvanized and powder-coated trays for industrial and commercial applications. C & D International: Offers perforated and ladder trays with CNC precision manufacturing. Kiash Electricals: Supplies strong, durable trays suitable for commercial buildings, industrial plants, and telecom/data centers in Sri Lanka.

Eastlink: Offers a variety of cable trays including steel, aluzinc, and aluminum alloy options for organized cable distribution.

Applications

Industrial plants, power distribution, and data centers. Commercial buildings and office complexes. Outdoor and harsh environments requiring corrosion-resistant solutions.

Environments where easy maintenance and cable ventilation are critical. Sri Lanka's cable tray market provides versatile solutions to meet diverse installation needs, ensuring durability, safety, and compliance with international standards.
