

Sudanese self-supporting optical cable junction box manufacturer

Overview

ConductorOur staff have highly experiences, good training and they worked at all operators in Sudan (Sudatel, Zain & MTN). Conductor is leading contractin.

Key Takeaways

There are currently no widely documented Sudanese manufacturers of self-supporting optical cable junction boxes, but regional suppliers in the Middle East and China can provide suitable products for Sudanese projects.

Regional and International Suppliers

Saudi Arabia

Bahra Electric manufactures optical fiber products including OPGW and related cable accessories, with a strong focus on quality and international standards, making them a potential supplier for Sudanese telecom projects (Bahra Electric). Ajay Enterprises specializes in FRP junction boxes and enclosures, offering corrosion-resistant, weatherproof, and electrically insulated boxes suitable for outdoor optical cable networks (Ajay Enterprises). Gulf Trans Power Trading Company provides IP55/IP65-rated junction boxes, including explosion-proof and polycarbonate enclosures, which can be adapted for optical cable applications in harsh environments (Gulf Trans Power).

China

Suzhou UK

T New Energy Technology Co., Ltd designs and manufactures photovoltaic junction boxes, which can be adapted for optical cable networks. They hold TUV and UL certifications, ensuring compliance with international standards (Made-in-China). Alibaba Suppliers offer a wide range of optical cable junction boxes, including wall-mounted, floor-mounted, and terminal boxes suitable for self-supporting optical cables.

Many suppliers provide customization and export options to Africa (Alibaba).

Considerations for Sudanese Projects

Environmental Conditions: Sudan's climate can be harsh, with high temperatures and dust.

FR

P or polycarbonate enclosures are recommended for UV resistance, corrosion protection, and electrical insulation. **Certifications:** Ensure the junction boxes meet IP55/IP65 ratings for dust and water protection, and check for compliance with IEC or UL standards. **Local Partnerships:** While no local manufacturers are documented, partnering with regional suppliers in Saudi Arabia or China can reduce shipping costs and provide technical support for installation.

Customization: Many suppliers offer wall-mounted or pole-mounted junction boxes suitable for self-supporting optical cables, with options for multiple entry points and internal cable management.

Recommendation

For Sudanese projects, it is practical to source from regional Middle Eastern suppliers like Bahra Electric or Ajay Enterprises, or from certified Chinese manufacturers via Alibaba. These suppliers can provide durable, weather-resistant, and certified optical cable junction boxes suitable for self-supporting cable networks, with options for customization and export to Sudan.
