Supplier of communication optical cables and accessories

Overview

ENETUSAENET Solutions is comprised of some of the industry's most trusted and recognized brands with decades of loyal partnerships. We Fiber Optic Solution.

Key Takeaways

Leading manufacturers of communication optical cables and accessories include AFL, Prysmian Group, CommScope, Optical Cable Corporation (OCC), ETK Kablo, and TS Cables, offering a wide range of fiber optic solutions for global networks.Key Manufacturers and Their Offerings

AFL – Based in Duncan, South Carolina, AFL produces fiber optic cables, connectors, fusion splicers, and test equipment. Their products serve telecommunications, industrial, and utility sectors, emphasizing high performance and reliability for both small and large-scale networks . Prysmian Group – A global leader in fiber optic solutions, Prysmian designs cables for short- and long-distance communication, supporting demanding infrastructure projects with durable and high-performance products . CommScope – Specializes in network infrastructure solutions, including fiber optic cables and components for data centers, enterprise networks, and telecom systems. Their products focus on connectivity, scalability, and ease of installation . Optical Cable Corporation (OCC) – With over 30 years of experience, OCC manufactures fiber and copper cables, SMPTE cables, enclosures, and assemblies. Their products are designed for high-performance networks in broadcast, enterprise, industrial, and data center applications . ETK Kablo – Founded in Turkey, ETK Kablo produces single-mode and multimode fiber optic cables up to 576 cores, including armored, indoor/outdoor, flame-retardant, and fire-resistant variants. They also manufacture copper cables for data, control, and instrumentation applications, serving over 120 countries . TS Cables – Offers practical fiber optic solutions for both small installations and large-scale systems, focusing on performance, durability, and ease of installation for technicians and engineers .

Product Range and Accessories

These manufacturers provide a comprehensive range of fiber optic products and accessories, including:

• Single-mode and multimode fiber cables (OM1–OM5)

• Central loose-tube, multi loose-tube, tight-buffered, and microduct designs

• Armored and non-armored variants for indoor/outdoor use

• Connectors, patch cords, MPO/MTP assemblies, and adapters

• Fiber optic test equipment, splitters, WDMs, attenuators, and couplers

• Specialty fibers for high-power laser delivery, spectroscopy, and sensing applications

Global Reach and Reliability

These companies maintain international distribution networks, OEM services, and compliance with industry standards (IEC, EN, TIA). They cater to telecommunications, enterprise, industrial, medical, and defense sectors, ensuring consistent quality, short lead times, and long-term support for network projects . By selecting from these manufacturers, businesses can access high-quality optical cables and accessories suitable for modern communication networks, 5G infrastructure, data centers, and specialized industrial applications.
